INTRODUCTORY

FOREIGN EXCHANGE to the majority of people is as complicated as a Chinese puzzle. Comparatively very few understand its workings, and those able to quickly and correctly figure the equivalent of the money of one country into that of another at the numerous values quoted are even less in number.

With the very large and rapidly increasing Export and Import business between the United States and foreign countries necessitating large commercial money transactions, and the large foreign population who are frequently sending remittances to their relatives and friends, we can only attribute the lack of general knowledge upon the subject to the fact that few, if any, publications have heretofore clearly explained it and none of them have gone sufficiently far as to furnish in complete and concise form, simple conversion tables by which *any one* can readily determine the equivalent of any sum of foreign money in United States money, or any sum of United States money in foreign money at the numerous fluctuating rates of exchange used in such transactions.

Most people are equally unfamiliar with the kinds, denominations and intrinsic values of the moneys used by countries other than those in which they live, or have visited, and we claim the distinction of being the first to present to the public in concise form, complete information upon the subject with equally essential data showing the location, form of government, area, population, principal cities, capitals, etc., of all countries, Islands, etc., of any commercial importance in the world.

The writer, with a thorough knowledge of the details of Foreign Exchange business, and from data obtained from numerous reliable publications, here undertakes to furnish in a single edition, a reliable and complete publication entitled *"Foreign Exchange."*

Chicago, Ills., U. S. A.

H. H. Brooks

OPINIONS OF EXPERTS.

The Commercial National Bank, Chicago.

CHICAGO, ILL., Jan. 13, 1900.

Mr. H. K. Brooks, Manager,
Foreign Exchange Dep't, American Express Co., City.

Dear Sir:—Having looked over the manuscript of the book you are to publish, entitled "Foreign Exchange," I am pleased to state it is the most complete I have ever seen upon that subject.

The conversion tables for English, French and German Exchange, while perhaps more complete than necessary for general use will be found an advantage to large banks and should in time avoid the confusing fractional quotations, such as plus or minus $1.00, 1-32, 1-16, &c., now used, by reason of other conversion tables not giving closer rates.

To have conversion tables for *all* kinds of foreign money in one book ought to insure its sale at a good price, for we have found it necessary to buy several books to get even less information.

The information given regarding foreign exchange seems to cover every conceivable transaction, and clearly explains every detail of the business, and the data regarding foreign money and its value, is certainly very complete.

As a whole this book should enable a novice to be as well posted upon Exchange transactions as though engaged in the business for years.

The best criticism we can offer is our subscription for a copy when ready for delivery. Yours truly,

COMMERCIAL NATIONAL BANK OF CHICAGO.
Foreign Exchange Department.

M. KRELL, Manager.

Union National Bank, Chicago.

CHICAGO, Jan. 11, 1900.

Mr. H. K. Brooks,
78 Monroe St., Chicago.

Dear Sir:—The manuscript of a book recently submitted to me, which you intend publishing, embracing tables for conversion of foreign money into U. S. money, and data regarding foreign countries, showing area, population, principal cities, and containing other information of interest, appears to us to be the most complete work yet undertaken, and we believe will prove of value to everybody concerned.

Yours truly,

MAX MAY,
Manager Foreign Department.

Bank of Montreal, Chicago.

JANUARY 12, 1900.

Mr. H. K. Brooks,
Manager Foreign Exchange Dep't, American Express Co., Chicago.

Dear Sir:—In answer to your request for an expression of my opinion regarding the book of "Foreign Exchange" which you propose to publish, and of which you showed me the manuscript, I have much pleasure in saying that I think the conversion tables very complete and conveniently arranged, and if correct, which I presume your care and attention will have ensured, they should prove very useful to bankers, and all classes having foreign exchange transactions to work out.

The remaining part of the work seems to contain much useful and interesting information for all having to deal in foreign moneys or exchanges, and I can see no reason why the work should not meet with a ready and large sale.

You may send us a copy when issued. Yours very truly,

J. W. O'GRADY,
Assistant Manager.

The Prairie State Bank, Chicago.

CHICAGO, Jan. 5, 1900.

Mr. H. K. Brooks,
78 Monroe St., Chicago, Ill.

My Dear Sir:—We take pleasure in expressing our opinion of the book you are about to publish entitled "Foreign Exchange" as per copy of your manuscript which has been shown to me.

The set of Foreign Exchange Conversion Tables is the most complete and concise we have ever seen and the only ones we know of covering all kinds of foreign money in a single publication.

Your plan of converting all sums both ways under each rate of exchange, will prove of great convenience, and the fact that your tables give Sterling money by eighths of a cent per pound; Francs by eighths of a centime, and Marks by sixteenths of a cent, make your tables much more complete than those heretofore published. We of course cannot determine the correctness of these tables without too great labor, but presume your experience and knowledge of the business will insure this.

The data which you also furnish in this book in regard to foreign countries and cities and the coins and their value used, together with the percentage tables in English and United States money and the explanation of various forms of paper used in transactions with foreign countries, will be interesting and educating to bankers or others having a limited knowledge of such information.

We should think every banker, exporter or importer would find your book useful as well as instructive.

When you have the book ready for delivery kindly send one to me at this office and oblige,

Very respectfully yours,

GEO. WOODLAND,
Vice-President.

THE ONLY BOOK

Containing conversion tables for ALL kinds of foreign moneys at all rates of exchange used in commercial transactions.

The only book which converts foreign money into U. S. money and U. S. money into foreign money for all kinds of foreign money at all rates of exchange.

The only book which tells you all about Foreign Exchange transactions.

American Express Company

Treasurer's Office,
65 Broadway, New York.

Jan. 12, 1900.

Mr. H. K. Brooks,
72-78 Monroe St., Chicago.

Dear Sir:—We have examined a copy of the manuscript of your publication entitled "Foreign Exchange," and being extensively engaged in the purchase and sale of Foreign Exchange in all its various forms, we are in a position to judge of its value to us here as well as to our Agents.

Your series of tables converting Foreign money into U. S. money, and U. S. money into Foreign money at all rates of exchange, and for all kinds of Foreign money used in remitting to foreign countries, are so complete as to leave no room for criticism, and will be found very convenient and useful to anyone having occasion to figure such transactions. We would think these tables especially useful to bankers in making settlement with jobbers from whom they purchase Foreign Exchange.

Your complete explanations of the forms, &c., used in financial transactions with foreign countries, and the data showing the kinds of money used in all countries, their value, &c, makes this book especially desirable for reference.

Upon receipt of printed copy complete, with estimate for furnishing 1,000 copies, we will consider the advisability of purchasing same for use at our principal Express offices. Yours truly,

JAMES F. FARGO,
Assistant Treasurer.

THE ONLY BOOK

Showing the Money of Account, a complete list of the gold, silver and minor coins and their value in U. S. money, the form of government, area, population, principal cities and their population, for every foreign country and every island of any commercial importance throughout the world. Besides a lot of other valuable information.

PREFACE.

In presenting this publication entitled "Foreign Exchange," it has been the aim of the Author to have it complete in every particular, and to make it so comprehensive anyone could readily understand and figure transactions of this nature without a practical experience in the business. If the reader will follow the illustrations and examples and read the explanations of the various forms of foreign commercial paper under heading of Foreign Exchange on page 162, it is believed his purpose will have been accomplished.

In the compilation of the figures comprising the conversion tables, the very great importance of accuracy has not been underestimated; on the contrary the fact that this point would be the first for consideration by users of this book, has caused the Author to use every possible precaution to insure absolute correctness of the figures.

The arrangement of the tables can easily be comprehended with the following explanation and illustrations:—

The first column of each table giving amounts from 1 to 10,000 in Sterling tables and from 1 to 100,000 in other tables, together with similar large figures from 1 to 95 in last column, represent *amount for conversion*, either dollars and cents in U. S. money, or corresponding sums in foreign money, that is, the first column represents amount in either dollars or pounds, dollars or francs, dollars or marks, &c., according to the heading of table, and the amounts in last column, either cents or shillings, cents or centimes, cents or marks, &c., as the case may be.

The large figures at the top of *each* double column are the *rate of Exchange* and we would here explain that these rates apply to *any* kind of foreign money of *same* value whether so noted in table or not.

The first of the double columns of figures in each table, under each rate, give the equivalent in U. S. money, of the amount in foreign money represented in figures opposite in first column, and the second column, the equivalent in foreign money of amount opposite in U. S. money.

ILLUSTRATIONS.

Find equivalent of 525£, 10s. 7d at rate $4.88¼ per £.

Operation:
500£ = $2,441.25
25£ = 122.06
10 s. = 2.44
7 d. = .14

Answer: £525, 10s. 7d. = $2,565.89

See page 13.

Find equivalent of $550.65 at rate $4.88⅛ per £.

Operation:
$500.00 = £102. 8s. 8d.
50.00 = £ 10. 4s. 10d.
.65 = 2s. 8d.

Answer: $550.65 = £112 16s. 2d.

See examp'e of addition in English money on page 1.

Find equivalent in U. S. money of 5,000 francs at rate 19.42 cents per franc. See page 65. 5,000 francs=$971.00.

Find equivalent of $5,000 in francs at rate 19.42 cents per franc. See page 65. $5,000=25,746 francs, 65 centimes. Expressed, Fr. 25,746.65.

For figuring profit on Exchange transactions and for quickly determining what rate of Exchange to quote in order to derive a certain profit over cost, the tables in this book have no equal for convenience. For illustration: Supposing you have sale for 500 pounds sterling and the lowest rate quoted you by jobbers is $4.86 per £. (Refer to page 11.) You will note by following along the line opposite 500 in left margin, the rate $4.86⅛ per £ would give profit of 63 cents, $4.86¼ per £ $1.25 profit, thus you are able to immediately determine what rate to charge customers to derive a certain profit on the transaction.

Decimals for larger sums as given at bottom of nearly all the tables are for use only when amount for conversion exceeds the highest amount in first column two or more times, and in that case, only when the decimal figures do not exactly correspond with the equivalent of highest amount shown. If, for example, the amount for conversion were 300,000 francs at rate 5.12½ francs per $1.00 (see page 27) you would multiply the decimal at bottom by 3, instead of the equivalent of 100,000 francs by 3, as it makes the slight difference of about 2 cents in the transaction. The reason for this is that fractions of 1 cent are not expressed in these tables, but where such fraction was over 50 the next higher decimal was increased one, if under 50 it is disregarded, while if exactly 50 the next higher decimal is increased one if in U. S. money, but disregarded if in foreign money, thus giving seller of Exchange the benefit of this small fraction.

SPECIAL TABLES.

Page 2.—**English Percentage and Commission Table.** This table will be understood and appreciated by those having direct dealings with bankers or others in countries using the English monetary system.

Page 3.—**Fractional Sterling Exchange Rates** expressed to the decimal of 1£. It is the present custom in quoting rates upon large sums in Sterling Exchange to confine the rates to the present printed conversion tables, which, until the issuance of this book, have not provided rates closer than by fourths of a cent per £, and when quoting between these rates, to supplement the regular rates by the use of fractions of 1%, plus or minus, such as $4.88½ minus 1/16 per £, which, figured out and expressed decimally, is $4.881946875 per £, or a little over $4.88⅛ per £. This table, which is believed to be the most complete ever issued, gives the exact decimal of a single pound at all the principal rates so quoted.

Page 23.—**Fractions of One Percent.** The custom of supplementing what are now termed regular quotations on Foreign Exchange, with fractional quotations, such as plus or minus 1/32, 1/16, 3/32, or 1/8 of 1% in order to quote a rate above or below those appearing in printed conversion tables heretofore supplied, has become so general, for the convenience of those wishing to continue the practice or who may receive such rates, this simple and convenient table is furnished for quickly figuring such transactions. As explained elsewhere, the fractions when so used, mean percent of amount in U. S. money, plus or minus, after converting at the regular rate. For example: 5,000 francs at rate 5.16¼ minus 1/16 can be quickly figured by the use of table on page 31, which gives the equivalent of 5,000 francs at rate 5.16¼ to be $968.52, and on page 23 you will find that 1/16 of 1 % of $968.00 is 61 cents. You have, therefore, only to deduct 61 cents from $968.52 to arrive at the correct amount. I would add that inasmuch as 1% of $1.00 amounts to only 1 cent, it is unnecessary, as a rule, to take the cents into consideration unless you add 1 to dollars if over 50 cents and disregard the cents if less than 50.

Pages 24 and 40.—**Fractional French and German Exchange Rates.** These tables are similar in form to that on page 3 and are for practically the same use, although the practice of using fractional quotations for French and German Exchange, where the rates used are for the equivalent of $1.00 in francs and for 4 marks, as is customary in large cities, is more general than in the use of such fractions with sterling quotations. These tables give not only the exact decimal of a single franc or mark at the fractional rates used, but also give the decimal of a single franc or mark at the regular rate, and are believed to be the most complete published. Their use will readily be understood by the explanation of the Fractional Sterling Rate table in second preceeding paragraph. While these tables would perhaps be more convenient for figuring even amounts, such as hundreds, thousands, &c., for odd sums and smaller amounts the use of the table on page 23 in connection with regular rates would be more convenient.

Pages 156, 157, 158, 159, 160 and 161 also give interesting and useful special tables in connection with Foreign Exchange transactions, each of which bear an explanation of its use.

FOREIGN EXCHANGE.

Those unfamiliar with the details of Foreign Exchange transactions should read the explanations and illustrations given under this heading commencing on page 162.

FOREIGN MONEY AND FOREIGN COUNTRIES.

The information given under this heading in last pages of this book will be found very complete and interesting and of especial value for reference. The values of the gold and silver coins as given were necessarily obtained from various statistics and publications, and while believed to be sufficiently accurate for general information are not intended for use in commercial transactions, since in some countries the value of gold and silver coins fluctuate. Bear in mind, however, these values are not home value or market value of the coins, but are intended to be the *actual* mint value based upon the weight and fineness of the metals contained therein and the present price of gold and silver bullion, except where otherwise stated.

HOWARD K. BROOKS.

ENGLISH EXCHANGE AND MONEY

The Sterling Exchange Tables on pages next following are at rates $4.79 to $4.93 per pound Sterling by eighths of one cent, and $4.93 to $5.00 per pound by fourths of one cent. The large figures at left margin of tables represent *either* pounds or dollars (U. S.), and the large figures at right margin *either* shillings or cents, and those in lower right margin pence. The large figures across the top of page are the *rate* per pound. The *first* of the two columns under *each rate* is the equivalent *in U. S. money* of the number of *pounds* in large figures in left column opposite. The *second* column of figures under *each rate* is the equivalent in *pounds, shillings and pence* of the number of *dollars* in large figures in left column opposite. See general explanation of tables on page preceeding.

English Money.—Most foreign countries have adopted what is known as the decimal monetary system, wherein 100 of the decimal equals one of the unit of money as in the money of the United States where 100 cents equals one dollar or the unit. The English monetary system in use throughout Great Britain and most of its colonies and dependencies and to some extent in all countries of the world is so different from that of other countries the following explanations and examples will be of interest:

Table of English Money.

		£	s.	d.	far.
4 Farthings	(expressed "far.") = 1 Penny or pence.	1	= 20	= 240	= 960
12 Pence	(expressed "d") = 1 Shilling.		1	= 12	= 48
20 Shillings	(expressed "s") = 1 Pound or Sovereign.			1	= 4
21 Shillings	= 1 Guinea.				

Addition in English Money—EXAMPLE.

	£	s.	d.
Add.	240	12	8
	15	10	5
	5	5	4
Ans.	£261	8s.	5d.

EXPLANATION.—Since 12d. = 1s. and the total of pence is 17, you carry 1 to shillings leaving 5d. Since 20s. = 1£ and the total of shillings is (including 1 carried from pence) 28, you carry 1 to pounds leaving 8s.

Subtraction in English Money—EXAMPLES.

	£	s.	d.
From	215	12	8
Subtract	210	8	4
Answer	£5	4s.	4d.

This is simple subtraction as in other moneys, the minuend or upper figures being greater in each case.

	£	s.	d.
From	215	12	8
Subtract	210	4	9
Answer:	£ 5	7s.	11d.

The subtrahend or lower figures in pence being greatest, add 12 to upper figures making 20 (12d=1 s.) 9 from 20 leaves 11. Carry 1 to shillings.

	£	s.	d.
From	215	12	8
Subtract	212	15	10
	£ 2	16s.	10d.

The pence and shilling in upper amount being greatest, add 12 to pence making 20. 10 from 20 leaves 10 d. Carry 1 to shillings making 16. Add 20 to shillings making 32. 16 from 32 leaves 16s. Carry 1 to pounds. 213 from 215 leaves 2 pounds.

To Reduce Shilling and Pence to Decimal of Pound.

Multiply the shillings by .05, because one shilling is 1-20 or five-hundredths of a pound. Multiply the pence by .004 1-6, because one pence is 1-240th or 4 1-6 thousandths of a pound. To avoid the use of the fraction "1-6" add one if result is over 12 and 2 if over 35 and result will be the same.

EXAMPLE: Reduce £525, 10s., 6d. to pounds and decimal.

£525	= £525.
10s =	.50
6d =	.025
Decimal £525.525	

NOTE.—By multiplying the decimal of any amount in pounds, shilliug and pence so reduced, by the rate per pound it will always give you the amount in U. S. money.

To Convert English Money into U. S. Money.

Reduce the shilling and pence to decimal of pound as above, then multiply by rate per pound.

EXAMPLE: To find the equivalent of £525, 10s., 6d. in U. S. money at rate $4.96½ per £.

£525.	= £525.
10s. =	.50
6d. =	.025
Decimal	£525.525
	4.9650 (Rate)
	26276250
	3153150
	4729725
	2102100

NOTE.—See example below converting same amount U. S. money into English money.

Ans.: $2,609.2316250 or $2,609.23

To Convert U. S. Money into English Money.

Divide the amount, dollars and cents, by the rate per (£) pound Sterling and it will give the pounds and *decimal* of pound. Multiply the *decimal* (not the pounds) by 20. (20s. = 1£) and it will give the shillings and *decimal* of shillings. Multiply the *decimal* of shillings by 12 (12d. = 1s.) and it will give the pence and decimals of pence. If decimal of pence is 50 or over add 1 to pence.

EXAMPLE: To find the equivalent in English money of $2,609.23 at rate $4.96½ per £.

OPERATION: 4.9650)2,609.2300(525.5246

2,482.50	20
126730	s. 10.4920
99300	12
274300	d. 5.8040
248250	
260500	
248250	
122500	
99300	
232000	
198600	
334000	
297900	
36100	

Ans.: £525, 10s, 6d.

NOTE.—This example is proof of correctness of preceding example of same amounts.

To Find Interest or Per Cent on English Money.

First reduce shilling and pence to decimal (see above). Multiply by rate of interest or per cent. Multiply *decimal* of that result by 20. (20s. = 1£) and whole number will be shillings. Multiply *decimal* of shillings by 12 (12d. = 1s.) and it will give pence and decimal of pence.

EXAMPLE: To find interest, 4 per cent on £550, 15s, 11d, one year.

£550	= £550.
15 s. =	.75
11d. =	.046
£'s and decimal	550.796
	.04 %
	£22.03184
	20
	s. 0.63680
	12
	d. 7.64160

Ans. £22, 0s, 8d.

Another Way to Find Interest or Per Cent English Money.

Point off two figures at right of pounds, shilling and pence. Multiply by rate per cent or interest. Carry to shillings 1 for each 12 pence and to pounds 1 for each 20 shillings. Multiply the *decimal* of pounds by 20, adding thereto the shillings and multiply the *decimal* of that product by 12, adding thereto the pence.

EXAMPLE:—To find 4 per cent of £550, 15s., 11d.

Pointed off £5.50 .15s. .11d.

		.04 %	(Rate)
£22.03	3s.	8d.	EXPLANATION:—44d. = 3s., 8d. 60s. plus 3s. = 63s.
20			
s. 0.63 (3s. added.)			Ans., £22, 0s., 8d.
12			
d. 7.64 (8d. added.)			

Note that in multiplying decimal of £ by 20 we add the 3s., and in multiplying decimal by 12 we add the 8d.

To Find Ad Valorem Duty on Importations, Value Being Expressed in English Money.

Reduce pounds, shillings and pence to decimal as explained above. Multiply by *par* rate of Exchange ($4.8665). Multiply the product by rate of duty (per cent) adding the result to product previously derived by multiplying by rate of Exchange.

EXAMPLE: Value of goods £550, 15s., 11d. Import duty 30 per cent.

	£550 = £550.	
	15 s. = .75	
	11d. = .046	
	Decimal 550.796	
	4.8665	Rate used by
$2,680.45	2753980	Custom House
.30%	3304776	(par.)
$ 804.1350 Duty.	3304776	
	4406368	
	2203184	
	$2,680.4487340	—Cost of goods (U. S. money) not including duty.
	804.13	
	$3,484.57—	Cost of goods including duty.

The legal value of one pound Sterling (£) in the money of the United States as fixed by Director of Mint is $4.8665.

Percentage, Commission and Discount Table of English Money.

Pound Sterling.	1-32 of 1 %	1-16 of 1 %	1-8 of 1 %	3-16 of 1 %	1-4 of 1 %	5-16 of 1 %	3-8 of 1 %	1-2 of 1 %	5-8 of 1 %	3-4 of 1 %	7-8 of 1 %	1 Per Cent.	1 1-4 Per Cent.	1 1-2 Per Cent	1 3-4 Per Cent.	2 Per Cent.	3 Per Cent.	4 Per Cent.	5 Per Cent.	6 Per Cent.

NOTE:—Where the decimal of pence was 50 (½) or more, the next higher unit is used; if less than 50 it is disregarded.

Note:—By moving decimal (.) one figure to right it gives decimal for 10£, two figures 100£ three figures 1,000£, four figures 10,000£, five figures 100,000£, six figures 1,000,000£.

Fractional Sterling Exchange Rates Expressed to the Decimal of 1£.

This table is principally for use of Brokers and Jobbers of Foreign Exchange.

Rate per £	1£ At Rate Less 1-32 of 1 %.	1£ At Rate Less 1-16 of 1 %.	1£ At Rate Less 3-32 of 1 %.	1£ At Rate Less 1-8 of 1 %.	1£ At Rate Plus 1-32 of 1 %.	1£ At Rate Plus 1-16 of 1 %.	1£ At Rate Plus 3-32 of 1 %.	1£ At Rate Plus 1-8 of 1 %.

The above will be found convenient in figuring Foreign Exchange, where the rate is expressed in fractions, providing tables in this book do not cover same.

Example:—The rate for Marks, .95 13-16 per 4 Marks, would be .958125. The rate Fr. 5.15⅝ per $1 00 would be Fr. 5.15625.

$4.79 to $4.79 7-8 per £.

Pounds or Dollars.	4.79 £ = $	4.79 $ = £	4.79 1-8 £ = $	4.79 1-8 $ = £	4.79 1-4 £ = $	4.79 1-4 $ = £	4.79 3-8 £ = $	4.79 3-8 $ = £	4.79 1-2 £ = $	4.79 1-2 $ = £	4.79 5-8 £ = $	4.79 5-8 $ = £	4.79 3-4 £ = $	4.79 3-4 $ = £	4.79 7-8 £ = $	4.79 7-8 $ = £

FRENCH EXCHANGE

In exchange transactions between the United States and France, the rate of Exchange, as usually quoted by banks in large cities, is the variable number of francs and centimes allowed for $1.00 and is specified, for example, thus: 5.16¼, meaning that 5 francs 16¼ centimes would be allowed for $1.00. At smaller places it is the custom of sellers of exchange to quote the rate per single franc which is expressed, for example, thus: 19.35 cts., meaning 19 and 35 hundredths cents per franc.

In quoting the rate per $1.00 it is customary for banks to advance or lower the rate by ⅝ of a centime. For instance the next lower rate to 5.15 would be 5.15⅝ and the next 5.16¼, &c., there being ⅝ between each quotation. The reason for this is that ⅝ of a centime is equivalent to ⅛ of 1 per cent in pound sterling, and by reason of most of the French Exchange being formerly covered or paid through English Exchange, this method served a convenience in figuring, and the conversion tables heretofore published are so arranged. Besides, a difference of ⅛ of 1 per cent in quotations have until recent years been regarded sufficiently close for commercial purposes.

The sharp competition of the present time and the fact that single transactions are for much greater sums than formerly, has necessitated closer rates, and while most banks still adhere to the ⅝ method of quoting, they supplement these rates by such confusing quotations as, for instance, 5.15 plus 1-32, or 5.15⅝ minus 1-16, or 5.16¼ minus 3-32, &c. This *plus* or *minus* fraction does not apply directly to the rate, but means 1-32, or 1-16, or 3-32 of 1 per cent *plus* or *minus* the equivalent amount in U. S. money, after figuring at the rate 5.15 or 5.16¼ &c., which amount or its equivalent should be added or deducted as the case may be. (See examples below.)

Banks who but a few years ago found a London account ample for their requirements in drawing Exchange upon nearly all foreign countries now find it necessary to have accounts in Paris, Berlin, Vienna, St. Petersburg and other large centers, on account of the large increase in the foreign exchange business between the United States and all foreign countries.

The conversion tables in this book convert French Exchange, the equivalent of $1.00, by ⅛ of a centime, instead of ⅝, and it is hoped by so doing to establish the custom among banks of doing away with the confusing fractional quotations, such as plus or minus 1-32, 1-16, 3-32, 1-8, &c., but for the convenience of those using these fractional quotations, a table will be found on page 23 converting sums at all fractions of one per cent.

Bear in mind that the higher the quoted rate per $1.00 for francs the lower the rate of Exchange. For example: $5,000 at rate Fr. 5.15 would give 25,750 francs, while 25,750 francs at rate 5.20 would only cost $4,951.92.

HOW TO FIGURE FRENCH EXCHANGE

EXAMPLE:—What will 1,290 francs 62½ centimes cost at rate Fr. 5.16¼.

OPERATION:—
```
5.1625)1290.6250(250.
      1032.50
      ------
       258125
       258125
       ------
            0
```
ANSWER: $250.00

[Note.—The amount 62½ centimes are used in this example simply to prove example given below.]

EXPLANATION:—Divide the amount in francs and centimes by the rate.

EXAMPLE:—What amount in francs and centimes will $250 buy at rate Fr. 5.16¼.

OPERATION:—
```
  5.1625
     250
  -------
  2581250
 103250
 -------
1,290.6250
```
ANSWER: 1,290 Francs, 62½ Centimes.

EXPLANATION:—Multiply the rate by the amount in dollars and cents.

EXAMPLE:—What will 1,290 francs, 62½ centimes cost at rate 5.16¼ minus 1-16.

OPERATION: Divide amount in francs and centimes by the rate, as shown in example above. Fr. 1,290.62½ divided by 5.1625 = $250. 1-16 of 1 per cent of $250 = 16 cents which deducted from $250.00 = $249.84, the answer.

EXAMPLE:—What will 1,290 francs, 62 centimes cost at rate 5.16¼ *plus* 1-16.

OPERATION:—Divide amount in francs by rate. 1,290.62 divided by 5.1625 = $250.00. 1-16 of 1 per cent of $250.00 equals 16 cents. $250 plus 16 cents = $250.16, which is the answer.

EXAMPLE:—What amount in francs and centimes will $250 buy at rate 5.16¼ minus 1-16.

OPERATION:—Multiply the rate (5.1625) by the amount in dollars and cents ($250.00) = Fr. 1,290.62½ (see example above). 1-16 of 1 per cent of $250 = 16 cents. Multiply the rate (5.1625) by 16 cents = 82½ centimes. Deduct 82½ centimes from Fr. 1,290.62½ = Fr. 1,289.80, which is the answer.

To determine the price of a single franc when the rate is quoted per $1.00, divide $1.00 by the quoted rate. For example, if rate is Fr. 5.16¼ the price per single franc would be 19.37 cents, and a further decimal if necessary to carry out for figuring a large sum.

EXAMPLE: What amount in francs will $250.00 buy at rate 19.37 cents per franc.

OPERATION: Divide the amount in dollars and cents ($250.00) by the rate (.1937 cts.) = 1290 francs, 65 centimes, which is the answer.

EXAMPLE: What will Fr. 1,290.65 cost at rate 19.37 cts.

OPERATION: Multiply the amount in francs and centimes (1,290.65) by the rate (.1937) = $250, which is the answer.

For tables in this book converting French Exchange at the quoted rates per single franc, (see pages 51 to 80).

Subtraction, addition, multiplication and interest in French money is determined by same process as with U. S. money.

Italian, Swiss, Belgian, Grecian, Finnish, Roumanian and Spanish money has about the same value as French money, 19.3 cents being the value fixed by director of mint of the United States for computing customs duties.

NOTE:—The above table will be found convenient for use in connection with fractional quotations for Francs, Marks, Sterling, &c., such as plus or minus 1-32, or 1-16, or 3-32, or ⅛ of 1 %, &c. This table not only gives all fractions of 1 % of amounts in Dollars, but also of any foreign money of which 100 of the decimal equals one of the unit as in United States money where 100 cents equals one dollar. Cents and similar decimals of the unit can be disregarded since it will be noted that 1 % of $1.00 United States money is but 1 cent. In compiling this table where the decimal of one cent was 50 (½) or more, one is added to next higher unit and if less than 50 (½) it is disregarded.—*Author.*

EXPLANATION.

By moving the decimal (.) to right it gives the decimal of larger sums, as follows:—

One figure - - -	10 Francs
Two figures - - -	100 "
Three " - - -	1,000 "
Four " - - -	10,000 "
Five " - - -	100,000 "
Six " - - -	1,000,000 "

For Example: 10 Francs at rate 5.10 — 1-32 = $1.96, 100 Francs = $19.60, 1,000 Francs = $196.02, 10,000 Francs = $1,960.17, 100,000 Francs = $19,601.72, &c.

German Exchange.

The monetary unit of Germany is the (Reich'smark) "*Mark*," the *actual* present value of which in the money of the United States is 23.8 cents.

In exchange transactions with Germany it is the custom of bankers in the larger cities to base the rate of exchange upon the equivalent of 4 Marks expressed in cents thus: 95⅛ cents, meaning that for each 4 Marks they will charge 95⅛ cents.

At smaller places the rate of exchange is quoted for a *single* Mark thus: 23.85 cents, meaning that for each Mark they will charge 23 and 85-100ths cents.

How to Figure German Exchange.

EXAMPLE:—What amount in Marks will $250 buy at rate 96¼ cents.

OPERATION: 4).96125

(*) 1 Mark. *.2403125)$250.0000(1040.31

2403125

9687500

Ans. 1040 Marks, 31 Pfennige. 9612500

7500000

7209375

2906250

2403125

503125

NOTE.—For small sums it is not necessary, in dividing by 4 to find 1 mark, to carry out the decimal so far as in this example.

EXPLANATION:—Divide the rate (96¼) by 4 to determine the price of a single mark (24.03 cts.) Divide the amount in dollars and cents ($250.00) by price per mark, which gives the number of marks and pfennige.

EXAMPLE:—What will 1040 marks 31 pfennige cost at rate 96¼ per 4 marks.

OPERATION: 4).96125

.2403125 Answer: $250.00

1040.31

2403125

7209375

9612500

2403125

249.999496875

EXPLANATION:—Divide the rate (96¼) by 4 to determine price per single mark. Multiply the amount in marks and pfennige by the price per mark (or vice versa) and it will give amount in dollars and cents.

EXAMPLE:—What will marks 1040.31 cost at rate *per single* mark 24.03.

OPERATION: 1040.31

.2403 Answer: $249.99

312093

416124

EXPLANATION:—Divide amount in dollars and cents by rate per single mark.

Addition, subtraction, multiplication, division and interest in German money is determined by same process as in United States money.

For German Exchange tables at rates per 4 marks see pages 41 to 49, inclusive, and for tables at rates per single mark, see pages 81 to 93, inclusive.

The above table will be found convenient for use in connection with German Exchange where the rates quoted are for 4 Marks and regular rates are supplemented with the fractional quotations of plus or minus 1/32, 1/16 or 3/32 of 1 %. These figures give the equivalent of one Mark and the decimal thereof at such fractional rates. The object of extending the decimal of one Mark so many figures is for quickly converting larger sums. For 10 Marks at any of the rates given you have only to move the decimal (.) one figure to right, for 100 Marks move decimal two figures to right, for 1,000 Marks three figures, 10,000 Marks four figures, 100,000 Marks five figures, and for 1,000,000 Marks six figures. It is, of course, unnecessary to use all the figures in the decimal when figuring smaller amounts. To determine the cost of any number of Marks and Pfennige at the rates given you have only to multiply the amount in Marks and Pfennige by the decimal or such portion thereof as the amount for coversion would require.

EXAMPLE:—Find the equivalent in U. S. money of 5,500 Marks 50 Pfennige at rate 93 1/16, less 1/32. *Operation:* Multiply Marks 5,500.50 by .2325835 cents per Mark. *Answer:* $1,279.33

For further explanation of this table see "Preface."

93 to 93 7-16 Cents per 4 Marks.

EXCHANGE ON FOREIGN COUNTRIES.

Upon the pages next following, 51 to 155, inclusive, will be found tables for the conversion of the money of nearly every country of the world into United States money and *vice versa*, at practically every rate of exchange used commercially. Tables for conversion of English money, Francs for the equivalent of $1.00 and for 4 Marks, are given on preceding pages, 4 to 49, inclusive.

In the large cities of the United States the rate of exchange as quoted for Francs is usually for the equivalent of $1.00, and the rate for Marks for 4 Marks instead of a single Franc or Mark. Just why this custom prevails the author is unable to explain, except that the quotations are for practically the equivalent of $1.00—exactly so in the case of Francs, and nearly so for Marks.

In the smaller cities and towns the rate of exchange as quoted is for a single Franc or Mark and for a single one of the unit of the money of all other countries, and it is believed the furnishing of conversion tables for the moneys principally in use, as contained in this book, will in time cause bankers and others in large cities to discontinue the custom of quoting the equivalent of $1.00 in Francs and the equivalent of 4 Marks, by reason of this latter method being much more complicated in figuring. In fact, the principal jobbers of exchange in the United States now rarely use quotations other than for the single unit of the money of the various foreign countries, except when quoting upon large sums to patrons in large cities.

Italian, French, Belgian, Swiss, Algerian, Finnish, Spanish, Grecian, Bulgarian, Roumanian, Servian and Austrian Exchange, at rates 18 to 20.99 cents per *Lire, Franc, Finmark, Peseta, Drachma, Lew, Lei, Dinar,* and *Krone or Crown,* will be found on pages 51 to 80, inclusive. Except for Commercial and Bankers' Bills (time paper), the rate of exchange for the moneys of these countries (except Italy) rarely goes below 19 cents, and Italian exchange seldom above 20 cents. Exchange on Bulgaria, Roumania and Servia being generally drawn in Francs, Marks or Sterling, no mention is made of these countries on tables, but the tables may be used for the conversion of the moneys of these countries when so quoted.

German Exchange, at rates 23 to 23.99 cents per Mark by $\frac{1}{100}$ of 1 cent, and at rates 24 to 24.95 cents per Mark by $\frac{5}{100}$ of 1 cent, will be found on pages 81 to 93, inclusive.

Scandinavian Exchange, at rates 26 to 26.99 cents per Krone by $\frac{1}{100}$ of 1 cent, and at rates 27 to 27.95 cents per Krone by $\frac{5}{100}$ of 1 cent, is given on pages 94 to 106, inclusive.

Holland Exchange, and Austria-Hungary Exchange of the old system, now discontinued, at rates 40 to 40.99 cents per Gulden or Florin by $\frac{1}{100}$ of 1 1 cent, and at rates 41 to 41.95 cents per Gulden or Florin by $\frac{5}{100}$ of 1 cent, will be found on pages 107 to 119, inclusive.

Central and **South American, Mexican, Japan, Hong Kong, Philippine Islands, China** and **Russian Exchange,** which includes Honduras, Salvador, Nicaragua and Costa Rica, of Central America, and Colombia, Brazil, Bolivia, Peru and Ecuador, of South America, at rates 42 to 53.95 cents per Peso, Boliviano, Sucre, Milreis, Dollar, Yen or Ruble by $\frac{5}{100}$ of 1 cent, is given on pages 120 to 155, inclusive.

Exchange on South American States is usually drawn in U. S. dollars (New York Exchange), and on Central American States in either U. S. dollars or Mexican dollars, but exporters and importers will find these tables useful in converting the moneys of these countries.

Exchange on Philippine Islands, Hong Kong and China is usually drawn in Mexican dollars.

Exchange on Russia and Japan is generally drawn in the money of these countries.

In furnishing tables for conversion of Mexican Exchange on Asiatic countries the author is aware that such exchange is frequently quoted by $\frac{1}{16}$ or $\frac{1}{8}$ of 1 cent; but in view of the fact that the principal jobbers of exchange in New York, who supply more than 90 per cent of banks with facilities for the issuing of such exchange, have adopted the custom of quoting by $\frac{5}{100}$ of 1 cent, the tables in this book are so arranged, and it is hoped those now quoting differently will adopt the method here provided.

★ Franc of France, Belgium and Switzerland, or Lire of Italy, or Peseta of Spain, or Drachma of Greece, or Crown of Austria-Hungary, or Mark of Germany, or Krone of Norway, Sweden and Denmark.

▲ Centime of France, Belgium and Switzerland, or Centesimi of Italy, or Centimo of Spain, or Lepta of Greece, or Heller of Austria-Hungary, or Pfennige of Germany, or Ore of Norway, Sweden and Denmark.

THIS TABLE

Is for computing Customs Duties upon Importations from countries named.

The Values used are those fixed by the Director of Mint.

100 Centimes Equal 1 Franc.

100 Centesimi Equal 1 Lire.

100 Centimos Equal 1 Peseta.

100 Lepta Equal 1 Drachma.

100 Heller Equal 1 Crown or Krone.

100 Pfennige Equal 1 Mark.

100 Ores Equal 1 Krone.

The rate $4.8665 applies to Great Britain.

The rate 19.3 Cents applies to France, Belgium, Switzerland, Italy, Spain and Greece.

The rate 20.3 Cents applies to Austria-Hungary.

The rate 23.8 Cents applies to Germany.

The rate 26.8 Cents applies to Norway, Sweden and Denmark.

For converting values of importations from Mexico, Russia, Japan, Holland and Central and South American States, the regular tables in this book can be used.

SHILLING OR CENTIMES.

Exchange Between England and France.

The mint par of Exchange between London and Paris is £1=25 francs 22½ centimes, or, to be accurate, Fr.25.2215. The rate of Exchange between these countries range between 25 francs per £ and 25 francs 45 centimes per £, although seldom reaching the two extremes. When French Exchange is as high as Fr. 25.10 per £ it pays to ship gold from England to France, and when at Fr. 25.35 it pays to send gold from France to England. In Exchange transactions between England and France, rates of Exchange between those given in above table are in general use.

In quoting the rate of Exchange for francs it is the custom in both England and France to quote the rate at so many francs and centimes per pound.

SHILLING OR PFENNIGE.

Exchange Between England and Germany.

The mint par of Exchange between England and Germany is 20 marks, 43 pfennige to the pound sterling. When Exchange in London is as low as Marks 20.34 per £ it reaches what is termed the gold exporting point, and when as high as about Marks 20.52 per £ it pays London to import gold from Germany. In both England and Germany it is the custom to quote the rate of Exchange at so many marks and pfennige per pound sterling, and we would add that the same method prevails in France, Belgium, Italy, Austria, Holland and the Scandinavian countries (Norway, Sweden and Denmark) where the rate of Exchange is quoted at so many francs, lire, kronen, gulden or kroner per £. In Spain, Portugal, Russia, India and China, Exchange is quoted at so many *pence* per dollar, milreis, rouble or rupee. It will therefore be noted that the higher the rate quoted the more favorable it is to England and the more unfavorable to Germany and the other countries mentioned, while between Spain, Portugal, Russia, India and China and England the lower the rate of Exchange the more favorable it is to England.

This table, as well as the tables on page preceding and page following, will be found useful to persons traveling in France and Germany to verify correctness of payments upon Circular Letters of Credit.

Marks into Francs at Rates 123.10 to 124.00 Francs per 100 Marks.

Note.—In France the rate of Exchange for Checks, &c., payable in Germany, is quoted at the variable number of Marks and Pfennige that will be allowed per 100 Francs. The rates above given are not intended to cover the full fluctuation.

FOREIGN EXCHANGE.

Foreign Exchange is a *system* by which commercial nations discharge their debts to each other. The indebtedness represents the value of commodities exported to, or imported from, other countries, the interest and profits on money invested, money loaned, the cost of carrying goods, the commissions for service, the expenses incurred in traveling in foreign countries, &c. These debts between countries have to be paid either with cash or something equally satisfactory to the creditors. The cost of transporting currency or gold and the risk attending same, while sometimes resorted to, is generally considered too great, and it is to avoid this expense and risk that the system of exchanging debts between countries is adopted through the means of Commercial Paper representing money.

Rate of Exchange.—The rates of Exchange quoted between any two countries, are for drafts, checks, or bills of exchange and the price includes, besides the actual equivalent of the standard coin, some allowance for interest, according to the tenor of the draft, and a premium which the seller demands for the economy and superior convenience of his draft as compared with a remittance in currency or bullion. This premium is more or less according to the amount of exchange in the market for sale and the demand for same, but the price cannot in any case rise much above the cost of transporting and insuring the coin from one country to the other.

Fluctuations in Price of Foreign Exchange.—If the United States owed England exactly the same amount that England owed the United States, the debts between them could be paid without the intervention of money, and the price of Exchange would be practically *at par*, but if the United States owed England a greater amount than England owed the United States, then the price of Exchange in the United States would be *higher* and in England *lower* and vice versa.

These fluctuations in values are regulated principally by supply and demand, the same as is the case with other commodities. If Exchange in England was lower than in the United States, it would be *in favor* of England and *against* the United States. In other words, Exchange in the United States would be at a *premium* and in England at a *discount*, the premium in one case being about equal to the discount in the other.

The expense of transmitting currency or gold from one country or one place to another practically limits the fluctuation in the price of Exchange between them, since it would be immaterial to the debtor, aside from the convenience, whether he paid a premium for the Exchange or remitted money direct to the creditor.

Parties to a Bill of Exchange and Their Responsibility.—The party who draws the bill is the *Drawer*. The party to whom the order to pay is addressed is the *Drawee*, until he gives his assent to the transaction by writing his name across the bill, when he becomes the *Acceptor*. The party to whom the bill is made payable is the *Payee*. The drawer and the payee may be the same person. When any holder of a bill writes his name on the back of the bill for the purpose of transferring his interest in it to some other person he is the *Indorser*.

The drawee upon accepting a bill (either in person or by his authorized agent) becomes primarily liable for it, but if he refuses to accept it when presented to him, or cannot pay it when due, he is said to *Dishonor* it, and the drawer and any of the indorsers become immediately liable to the holder upon receiving notice from the holder that it has been dishonored, accompanied by a request to pay the amount.

If the drawer pay the amount, then the indorsers are discharged from their liability to the holder, but, if the last indorser is compelled to pay the amount of the bill, the drawer and those indorsing previous to the holder are still liable, for the last indorser can sue them for the amount he has paid the holder for the bill.

Quotations for Foreign Exchange as given by banks in large cities are expressed somewhat differently than by banks at smaller places. In large cities the rate for Checks or Bills of Exchange is quoted for the equivalent of $1.00 in Francs instead of for a single Franc, and for 4 Marks instead of 1 Mark. For instance, if the rate for a *single* Franc is 19.30 cents, the quotation would be 5.18-⅛, meaning you would receive 5 Francs 18-⅛ Centimes per dollar. If the rate for Marks were say 23.75 cents per Mark the quotation would be 95 cents, meaning that each 4 Marks would cost you 95 cents.

Sterling money and that of other countries is usually quoted singly, that is, so much per Pound Sterling, Florin, Kroner, Krone, Rubel, &c. In quoting rates, particularly upon Sterling, Francs and Marks, banks will frequently use the terms: Plus $1, Plus 1-32 or 1-16, &c.; or Less 1-32 or 1-16, &c. Plus $1 is used principally with Sterling quotations and means, that in addition to the rate per £ quoted, $1 additional will be charged on each £1,000 purchased. The terms plus or minus 1-32 or 1-16, &c., *means 1-32 or 1-16 of 1 per cent, Plus or Less*, of the total amount in U. S. money of the check or bill. The reason for using these fractional complicated quotations is because the conversion tables heretofore published, while serving the purpose in the past, are not sufficiently complete for exchange transactions of the present, and in order to quote rates between those given in their conversion tables the use of these additional fractional quotations are found necessary.

The Conversion Tables in this publication give Sterling money by eighths of 1 cent, Francs by eighths of 1 Centime and Marks by sixteenths of 1 cent, while other publications do not quote Sterling closer than by fourths or halves of 1 cent, Francs by five-eighths of a Centime and Marks by eighths of 1 cent. The use of Tables in this book will practically avoid the necessity of these fractional confusing quotations and will be appreciated by all buyers or sellers of Foreign Exchange.

In asking for a quotation for Sterling, Francs or Marks banks in large cities will usually express the rates thus: Check, London 4.86. Check, Paris 5.18-⅛. Check, Berlin 95.3-16, &c. This means that the *Check* sold you at the rate quoted will be *payable* only in the cities mentioned and they wish you to so understand, for if wanted payable at some other city in these countries, they would quote you a different rate.

Newspaper Quotations of Foreign Exchange are rarely understood except by banks or dealers in such Exchange. In quoting these rates it is customary for newspapers to give "Posted Rate," "Actual Rate" and "Documentary Rate" and sometimes for Commercial and Banker's Bills. Posted or Nominal rates are those daily posted on the bulletins of dealers in Exchange for the use of the general public, or rates at which they will sell to other than large buyers, or for medium sized sums. Actual Rates are inside terms made to brokers or large buyers for large sums, and are somewhat less than Posted Rates. Documentary Rates are for Commercial Bills of Exchange (explained elsewhere). Banker's Bills are the drafts of a bank upon a foreign bank in which it has funds and are drawn payable in 30, 60 or 90 days after sight. These newspaper quotations are not intended to apply to very small sums.

London Rates of Discount as quoted in newspaper telegraphic reports from London generally read like this: The rate of discount in open market for short bills (meaning 30 days or less) is 3 to 3-½ per cent and for 60 and 90-day bills, 4-⅛ per cent. This signifies that a Commercial or Banker's Bill of Exchange may be discounted at these rates.

Such telegraphic reports also frequently give the rate of Exchange in London upon Paris and Berlin, reading thus: Exchange on Paris F.25.25. Exchange on Berlin M.20.46. This signifies that you can buy a check at bank in London payable in Paris or Berlin at rate of 25 Francs 25 centimes, or 20 Marks 46 Pfenniges for each pound Sterling. These quotations are for large sums.. (See Arbitration of Exchange.)

The Discount Rate in London materially affects the selling price in the United States of Commercial or Banker's Bills of Exchange. The higher the rate of discount in London, the lower the buying or selling price for such Bills in this country.

Arbitration of Exchange means the remitting of money to one country through another country having a different monetary system, or the purchase of Exchange or money of one country through another. An occasion for this will arise when the rate of Exchange here upon a foreign country is much higher or lower than the rate between another country nearby and the one you wish to remit to. For illustration: Suppose you desire to remit to Paris 25,250 Francs and the best rate quoted you was Fr. 5.17-½; this would cost you $4,879.23. Now you find a check on London can be bought here at say $4.84 per £, and that the telegraphic newspaper reports show London quotations for checks on Paris to be F 25.25 (25 Francs 25 Centimes per each £), you will see that for £ 1,000 you can obtain *in London* a check on Paris of 25,250 Francs, and that the check bought here on London of £ 1,000 at $4.84 per £ would cost only $4,840.00. Thus by remitting to Paris *through London* you save $39.23. Large bankers and jobbers of Exchange watch the quotations on Exchange between countries very closely and always avail themselves of any advantage to be gained by remitting to one country through another.

Exchange Transactions become more complicated when one country or place, as is often the case, discharges its debts through another country by means of Bills of Exchange drawn upon a third country or place. As for instance, a merchant in Chicago importing goods from China would pay the exporter in China with a check upon London, for the reason that such check would be more desirable to the shipper in China, since the demand for Exchange in China is greater upon London than upon the United States.

When in any market the demand for Exchange on a certain country or place is greater than the supply, the deficiency is usually supplemented by Bills on other countries having a more favorable Exchange with the latter.

In the East Indies, those who ship to America usually draw upon London instead of America. In New Orleans, exporters of cotton, etc., to Russia, draw upon London instead of St. Petersburg. This is because England does more business with those countries than America; besides London is regarded as the greatest money center, and exchange upon that city is usually more favorable and can be used to better advantage.

New York Exchange and that of other large cities is usually quoted in daily papers as being at par or a certain price, discount or premium. When at a discount or premium it is expressed in cents. By this they mean per $1,000. For illustration: If papers quote New York Exchange 50 cents discount, in transactions between banks (not as a rule with the public), for a check of $1,000 they would charge 50 cents less the face of check, while if at 50 cents premium a draft of $1,000 would cost $1,000.50.

The price of New York Exchange in western cities affect the price of Foreign Checks and Commercial and Banker's Bills. For instance, if New York Exchange at Chicago is at a considerable discount, the price of Foreign Checks or Bills in Chicago would be less than in New York, the difference being about the discount rate for New York Exchange, while if at a premium such Exchange would be cheaper in New York than in Chicago.

A Commercial Bill of Exchange ordinarily comprises: First, a Bill of Lading of a shipment to a foreign country. Second, a Certificate of Marine Insurance upon such shipment. Third, a Draft drawn by the shipper for the amount for which shipment was sold. When shipment is made from an inland city, the Railroad, Express or Freight Line carrying the goods to the seaboard will issue to shipper a "Through Bill of Lading," which in reality is a contract agreeing under conditions specified thereon, to transport the goods to destination. The Certificate of Marine Insurance is also a form of contract agreeing to indemnify the owner against loss of shipment while enroute on ship carrying same. The *Draft* is of ordinary form, payable to order of "Ourselves," meaning shipper. The amount is expressed in the money of the country to which goods are destined, and is usually payable in 30, 60 or 90 days from date of same, to allow for time consumed in transportation of goods, and for such time credit to purchaser as may have been agreed upon. These three documents are attached together and become what is termed a "Commercial Bill of Exchange," often designated as "Documentary Bills."

The shipper not wishing to wait 30, 60 or 90 days for his money will sell these Documents to banks or others at a discount from the market price for demand checks upon same country. This discount is usually equivalent to the interest on the money advanced by the bank, cost of collecting bill abroad and a fair compensation for service. If, for instance, the market rate for a demand check on London is $4.87 per £, a Commercial Bill of Exchange would bring about $4.83 per £, or a difference of about 4 cents per pound sterling. A bank buying this Bill may endorse and sell it to another bank at a profit, but eventually it finds its way abroad to a bank for collection. The consignee abroad is notified to call and accept the draft by writing the word "Accepted" thereon over his signature, and when due, pays same. Very often the consignee prefers to pay draft at once, which he is permitted to do, and is allowed a discount from face of draft at the rate of per cent fixed by banks for that day upon such transactions. The Bill of Lading is delivered to consignee which enables him to obtain shipment, and the bank abroad credits amount collected to owner of the Bill of Exchange, thus ending the transaction.

These Commercial or Documentary Bills of Exchange vary as to conditions of payment, but those most generally provided are as follows: *Documents for Delivery* (expressed d/d). *Documents for Acceptance* (expressed d/a). *Documents for Payment* (expressed d/p).

The first (d/d) means the Bill of Lading must at once be delivered to owner of goods, so he can obtain shipment before paying draft. In such cases the buyer of such Bill must look to the shipper or endorsers of draft for reimbursement, in case draft is not paid and sale of goods does not realize enough to pay the claim.

The second (d/a) means the Bill of Lading shall be delivered upon "Acceptance" of the draft, which in commercial law means the acceptor agrees to pay draft when due.

The third condition (d/p) means that Bill of Lading must not be delivered until draft has been paid.

In buying Commercial Bills of Exchange bankers generally require from the seller an agreement. This agreement, after describing the bill, states in effect that the Bill of Lading is lodged as collateral security for the acceptance and payment of the draft. That in case the drawees decline to accept or if not paid at maturity, the bank is authorized to place the property described in the hands of their brokers for sale, for account of whom it may concern and apply the proceeds toward payment of the bill, and that in case of any deficiency the seller agrees to pay the amount on demand.

Bank Circular Letters of Credit are sold or issued by nearly all banks, and provide a means whereby travelers can obtain money thereon at various banks in foreign countries. They are usually made out for a fixed amount, designated in Pounds Sterling, although sometimes drawn in Marks or Francs. It is in substance a letter addressed to the bank's correspondents abroad, requesting them to pay to the holder, whose signature is written thereon for identification, such amounts as the holder desires to draw, not exceeding, of course, the amount of the Credit.

Upon presentation at a bank designated in a list generally printed on the second sheet of the Credit, and stating the amount you wish to draw, expressing same in the kind of money for which Credit is issued, such bank will fill out a Draft for the amount against the bank mentioned on *face* of Credit, which particular bank is one where issuing bank has funds to its credit, and the holder, after signing this draft, will receive the equivalent of the amount asked for in the money of the country where presented, at the current rate of exchange for that day. The amount so received by the holder of the Credit is entered in a space provided on the back of Credit, and the latter is then returned to the holder. When the total amount drawn reaches the full amount of the Credit, the last bank paying upon same will take it up and forward it to the bank specified on the face of the Credit, usually a bank in London, Paris or Berlin. The Draft made out by the paying bank specifies on its face that it is *on account of money paid against a certain Letter of Credit, giving number, date, name of issuing bank, etc.* The bank specified will upon receipt of this Draft charge same to issuing bank, credit the account of paying bank, and then forward it to the issuing bank in this country.

A bank, to issue *its own* Circular Letter of Credit, must have funds to meet payments against same in a bank abroad. For that reason *only* the larger banks undertake to issue their *own* Letters of Credit. Other banks selling Circular Letters of Credit handle those of the larger banks mentioned, and receive a commission on such sales. Circular Letters of Credit are usually sold at a slight advance over the current rate for a Demand Check of same amount, with an additional fee of about 1 per cent of total amount of Credit.

Banks sometimes issue these Circular Letters of Credit to principal depositors without requiring cash payment therefor, but, instead, charge the customer's account with the amounts drawn abroad from time to time, as the Drafts against same are returned to them. As such Drafts are drawn in foreign money, the local or issuing bank will convert them into United States money at rate of exchange for which the Credit was originally sold, or at current rate of exchange, as the case may be, adding thereto 1% for commission on sale and about 5% from date of payment abroad to date the Drafts are received and charged against customer's account.

Two or three signatures of purchaser are usually obtained, one being sent to the depository bank at London, Paris or Berlin, for instance, the other being retained by issuing bank.

A Letter of Indication is sometimes used in connection with Bank Circular Letters of Credit. Such a letter is simply a letter of introduction of the holder to the bank's foreign correspondents, bearing the signature of the holder for identification. This letter in substance states that a certain Circular Letter of Credit, giving its number, date, etc. (not the amount), has been issued to such a person (giving holder's name), and requests that same be duly honored. Where such Letters are used the purchaser's name will not appear upon the Circular Letter of Credit, so in case the latter is lost, or, for that matter, the Letter of Indication, it would be of no use to the finder, for a bank abroad would not pay *either* unless *both* were presented together. Purchasers are requested to carry the Circular Letter of Credit separately from the Letter of Indication, to avoid both being lost together. This Letter of Indication is used simply to diminish the risk attending the issuing of Circular Letters of Credit in case of their loss.

A Commercial Letter of Credit is similar in form to that of a Circular Letter of Credit, but instead of being designed for traveling purposes is used in cases where purchasers wish to make large purchases, and the payments upon same are generally of large amounts and limited in payment to a certain designated bank.

Commercial Letters of Credit are often called "Mercantile Letters of Credit," although the latter is designed more particularly for the purpose of establishing for the holder, credit with a foreign merchant, to enable him to buy goods upon credit. It is not necessary that the purchaser of either of these Credits present same personally. Should they desire to purchase goods or obtain credit with a foreign merchant they can forward these Credits to the merchant for the purposes above mentioned, whereupon the foreign merchant would verify the genuineness of same at the bank specified, and such bank would upon presentation of shipping documents, bill of lading, insurance certificate and proper evidence of shipment of goods, cash the Draft against the purchaser of the Credit. Invoices are made out under oath to the American Consul which serves as an additional safeguard to the importer. These Credits are very extensively used by merchants in the purchase of goods in foreign countries.

A Banker's Bill of Exchange, is a draft similar in form to a check, and is issued in duplicate or triplicate, payable 30, 60 or 90 days after sight, to order of purchaser and is drawn upon a bank in a foreign country in which selling bank has funds to its credit to meet its payment. When drawn in sets, they are marked or printed as follows: First of Exchange—second and third unpaid. Second of Exchange—first and third unpaid. Third of Exchange—first and second unpaid. Another way: Original—Duplicate and Triplicate unpaid. Duplicate—Original and Triplicate unpaid. Triplicate—Original and Duplicate unpaid.

It is not unusual in the drawing of Bills of Exchange in sets for the drawer or purchaser to send the First of Exchange (or original) to the point upon which drawn for acceptance, and to sell the "Second of Exchange" (Duplicate) upon the market thus putting same into circulation. This Second of Exchange will bear the name and address of party holding the First or Accepted Bill, but before payment in such cases the First and Second are attached and thus become one bill. The reason for sending the first of exchange in advance for acceptance is to shorten the running time of the bill, since the 30, 60 or 90 days the bill has to run before due does not commence until it is presented to payee for acceptance. In selling the "Second of Exchange" banks will charge more for it if the "First" has been forwarded for acceptance a week or more previous. But ordinarily, the original is mailed at once, the duplicate by next steamer, and the triplicate, *if any*, is held by the purchaser. The object of sending the duplicate by mail is to avoid delay in payment in case original is lost. These notices or expressions on such Bills of Exchange mean that the bank abroad may pay either if the others have not been presented and paid.

Travelers' Cheques is the name of a form of travelers' credit issued by the American Express Co. These cheques are sold by that company at all its agencies and by many banks, and provide a very available and convenient means of obtaining money throughout the world. They are practically *Certified Checks* of that Company payable in *Gold* or its equivalent by upwards of 10,000 correspondents, and are virtually a *Universal Currency*. They are issued in fixed denominations of $10.00, $20.00, $50.00, $100.00 and $200.00

FOREIGN EXCHANGE.—Continued.

and each cheque has printed thereon the exact amount in foreign money which will be paid therefor in *Gold* or its equivalent, by that Company's offices, banks and bankers in the principal countries of Europe, specially designated on cheques. By the designation on cheques of a fixed amount of foreign money in Gold or its equivalent the holder always knows exactly what amount he is entitled to receive.

To provide the necessary security against loss and a simple means of identification, the person who is to use the cheque places his or her signature in the upper left hand corner thereof at time of purchase leaving all other spaces blank. When in need of funds the other forms are filled out, as in the case of ordinary checks and by again affixing signature in presence of person paying cheque, proper identification is established, as the two signatures must agree. No other identification is required.

These checks are sold at their face value with an additional fee of one-half of one per cent of the total amount of cheques purchased.

Travelers Cheque Credit of the American Express Co. is a form similar to that of a Bank Circular Letter of Credit and is used in much the same way, except that instead of drawing *money* at designated banks abroad, the holder can obtain at any of that Company's principal offices in foreign countries a supply of Travelers Cheques which are explained above.

The object of this Travelers Cheque Credit is to avoid the necessity of purchasers carrying with them at one time a large amount in Travelers Cheques. This form provides the same convenience and availability as the Travelers Cheques, and the cost is the same.

Foreign Drafts or Checks, payable upon demand, are issued by nearly all banks, either direct or through arrangements with other banks or Exchange dealers. These checks are of ordinary form drawn payable to the order of person to whom sent, by banks in foreign countries. They are issued in the currency of the foreign country where payable at current rate of Exchange. The Check states on its face the particular bank abroad who will cash it. Such Checks are payable under an "advice" system as follows: If the bank selling the Check has money to its credit in banks at principal trade centres abroad, it will arrange with such banks to have its correspondents in other towns and cities cash these Checks only upon receipt of an *advice* from them (issuing bank) showing number, amount, name and address of payee, &c. Under such an arrangement the paying bank will cash the Checks and forward them for credit to the banks in trade centres having funds deposited with them by the bank issuing the Check. The depository bank will then charge amount to issuing bank and forward the Check to latter bank to show payment.

In case the bank selling the Check does not keep funds abroad and issues Foreign Checks through an arrangement with some other bank (usually in New York or Chicago) the "Advices" are sent to, and payment arranged for, by latter named bank. (See Jobbers of Exchange).

Foreign Postal Remittances, sometimes called Bank Post Remittance or Bank Post Money Order, is a system intended to provide for payment of money at smaller places in foreign countries where there are no banks. But by reason of its convenience, it is very often used even though there is a bank at point of payment. It comprises a form usually bearing three stubs: The first being the selling banks record or memorandum. The second, the advice of the bank to the Jobber from whom it buys Exchange. The third, a receipt to the customer. In the use of this form, the customer is not given a check or other form to mail to payee, but instead relies upon the selling bank to effect payment, which is done in the following manner:

The Jobber upon receipt of the *Advice Form* which gives the correct address of payee, amount, etc., sends this "Advice" to its nearest principal correspondent in the country in which payment is to be made. The foreign bank correspondent encloses in an envelope the exact amount in the currency of that country and registers the package of currency direct to the address of payee through the Post Office, and it is then delivered by the local post master or mail carrier at the place payable. The convenience of this system lies in the fact that the payee is not obliged to take a check to a bank and be identified before he can obtain his money, and where the payee is unfamiliar with banking methods, as is most often the case, it is far more satisfactory to have the exact amount in currency of the country delivered to them at their residence, or by the postmaster who knows them.

A Clean Bill of Exchange is one without documents and comprises usually a draft, in duplicate, drawn by an exporter against its account in a bank abroad. It may be payable at sight, or 30, 60 or 90 days from date. Some large exporters find it to their advantage to collect their own bills through foreign banks in the principal cities such as London, Paris or Berlin, and when the Exchange market is favorable sell their own Drafts or Clean Bills against same, thus deriving the profit which would otherwise go to banks or others discounting their Documentary Bills.

Cable Transfers of Money to Foreign Countries are made in much the same manner as telegraphic transfers in the United States. They must, however, be effected by *or through* banks who have accounts in banks in principal cities abroad. A bank correspondent in a foreign country is instructed by cable to pay the amount named to payee, and the latter in doing so charges the amount against the account of the bank requesting payment, if it has funds to its credit, otherwise it draws against a bank in which issuing bank has funds. Cipher codes are used for this purpose. The cost of such transactions are usually the current rate of exchange, plus a commission amounting to about 1-4 of 1 per cent and the telegraph and cable charges. Very frequently, however, banks in quoting price for cable transfers will include their commissions for the service in the rate quoted.

Jobbers of Exchange. In the United States there are comparatively few Jobbers of Exchange, a few banks and bankers in New York and Chicago comprising the principal ones. Their method of conducting the business is to furnish to banks and sellers of Foreign Exchange a list of their correspondents abroad, together with the blanks necessary in transacting the business with the public, consisting of blank forms of checks bearing name of selling bank, and also forms for effecting payment for delivery by the Post Office in foreign countries at points where there are no banks. Jobbers then quote to banks or sellers of exchange as frequently as the market changes, net prices at which they will sell to them the different kinds of Foreign Exchange. The selling bank to derive its profit must add thereto such an amount as they can obtain from purchasers in competition with other sellers of Exchange. The purchaser is given a Check to mail. The selling bank at once notifies the Jobber of the transaction, giving complete address of payee, amount, etc., enclosing also the bank's own check for the amount due Jobber based upon rate quoted to them. The Jobber thereupon requests its correspondent abroad to pay the Check upon presentation, which the foreign bank correspondent does and charges the amount against Jobber's account, or in case the Jobber has no funds deposited in the paying bank, the latter, by previous arrangement, will send the Check for collection to some other bank in the vicinity where the Jobber has an account.

FOREIGN EXCHANGE.—Continued.

It is of the greatest importance, banks or others selling Foreign Exchange in this manner deal only with Jobbers having an unquestionable financial standing, for in the sale of forms to the public bearing their name, they must assume the responsibility to the customer of correct payment, and to do so for the comparatively small margin of profit they derive from such transactions, they cannot afford to run any risk of failure of Jobber to arrange for and cause correct payment of these Checks.

Exchange Brokers. At principal cities will usually be found one or more firms or individuals engaged exclusively in buying and selling Foreign Exchange including Commercial and Bankers Bills of Exchange, Cable Transfers, etc., for the account of banks, exporters, importers and others, and in transacting such business, do so upon a commission basis. Upon large transactions their commission is as small as 1-32 of 1 per cent of the amount, or even less. These brokers have the confidence of their patrons, and as a rule handle a large amount of this class of business.

Call Loans is money loaned on security of stocks, bonds or other collateral with the option of having it back at any moment. If the borrower is unable to pay upon *call* (or demand) the loaner may sell the securities upon the market at the best price obtainable and after reimbursing himself, including costs for commission for selling, etc., he must turn the balance if any over to the borrower.

Any banker or broker who buys a bill deducting so much from its price as interest till the bill becomes due is said to *discount* that bill and the amount so deducted is called discount.

Discount differs from interest. Discount is the allowance made in order to get the money on the bill before it is due. It differs from interest in that the *discounter* (bank or broker) not only deducts a certain rate of interest on the length of time the bill has to run, on the sum he pays, but also deducts interest at same rate upon the interest deducted.

A Crossed Sterling Check is one payable either to bearer or order, having the name of a banker or two parallel lines and the abbreviation & Co. written or printed across the face, thus: ——————— & Co. The effect is to direct the bank upon whom it is drawn to pay same only when coming to them through some other bank. It is intended as an additional safeguard against wrong payment.

In most foreign countries it is the custom of bankers and others in the cashing of checks, whether drawn payable to order or bearer, to pay to the person presenting same, and under the laws existing in these countries, the paying bank or banker would not be held liable for wrong payment. As a reason for this seemingly risky method, it is claimed that on account of the very severe penalty imposed for forgery under their laws, the requiring of strict personal identification, as exacted by banks in the United States, is found unnecessary.

As an additional precaution against wrong payment, the laws of Great Britain require that where a check is crossed, as explained above, while not requiring personal identification, it must be cashed through some bank other than the one upon which it is drawn.

Notwithstanding the requirements under the laws, we presume a reasonable amount of care is exercised by banks to prevent losses by incorrect payment, and we are informed that in some countries, strangers presenting checks drawn to their order, are required to make affidavit that they are the person named, for which affidavit, the paying bank exacts a small fee.

The term "Rate of Exchange" means the price of the money of any one country reckoned in the money of any other country. There are two kinds of Exchange, *direct* and *arbitrated*. Direct, is when between any two countries. Arbitrated is when between two places in different countries, through the medium of some other place in another country. The purchaser or seller should select whichever gives him the greatest amount of money in his own country. See Arbitration of Exchange.

The expense of remitting gold between New York and say London is generally made up in the following items: Freight ⅛ of 1 per cent; Insurance, ⅛ of 1 per cent; Cooperage, too small to consider; Abrasion, from nothing to ⅛ of 1 per cent on $20 gold pieces, ⅛ of 1 per cent on $10 gold pieces and ¼ of 1 per cent on $5 gold pieces. The cost of bringing gold from London to New York is the same as from New York to London.

If a party in London owe you 1,000£ or over the best way to collect is by selling your clean sight bill on him, providing you can get $4.82 to $4.83 per £, otherwise it is cheaper to have the gold shipped to you.

To pay a bill in London, of considerable amount, if a sight Sterling check can be bought for less than say $4.90 to $4.92 per £, it is best to buy a check, but if the sight check costs more than $4.92 per £, gold can usually be shipped cheaper.

A Bill of Exchange may be *paid* any number of times before it is due and be put into circulation between each payment, but once it is paid by the *acceptor* on its becoming due, it cannot again be put into circulation, nor can any action be brought upon it.

The difference between a bill of Exchange and a promissory note is that a bill of Exchange is *an order to pay*, while a promissory note is *a promise to pay*.

Exchange is at par when the amount we owe a country exactly equals the amount they owe us. *Par* is also the equivalent of the *actual* value in gold or silver.

Exchange is favorable to us here when we sell to other countries more than we buy from them and *against* us when we have to buy more than we sell.

Bankers' Bills of Exchange are those drawn by banker's upon bankers.

Commercial Bills of Exchange are those based upon movements of merchandise.

Documentary Bills of Exchange are those accompanied by Bills of Lading.

Actual Mint Par of Exchange between England and Other Countries.

One Pound Sterling is equivalent to

Argentine Republic	5	Pesos, .4 Centimos.
Austria	10	Florins, 8.8 Kreutzers (old system).
Austria	12	Kronen, ½ Heller (new system).
Belgium	25	Francs, 22½ Centimes.
Brazil	8	Milries, 90 Ries.
Chile	5	Pesos, 34 Centimos.
Denmark	18	Kroner, 16 Ores.
France	25	Francs, 22½ Centimes.
Germany	20	Marks, 43 Pfennige.
Greece	25	Drachma, 22½ Lepta.
Holland	12	Florins, 11 Cents.
Italy	25	Francs, 22½ Centisimi.
Norway	18	Kroner, 16 Ore.
Portugal	4	Milries, 50 Ries.
Spain	25	Pesetas, 22½ Centimos
Sweden	18	Kroner, 16 Ore.
Switzerland	25	Francs, 22½ Centimes.
Uruguay	4	Pesos, 70 Centimos.
United States	4	Dollars, 86.65 Cents.

The legal value of one Pound Sterling (1£) in the money of the United States is $4.8665.

The legal value of one Pound Sterling in the money of Canada is $4.86⅔.

MONEY OF FOREIGN COUNTRIES.

Countries of the World, their Area and Population. Principal Cities and their Population. The Money of Account. The Gold, Silver, and Minor Coins in Use and their Bullion Value in the Money of the United States. Kind of Money in which Drafts should be drawn payable. Other Information regarding the Money in Use. Arranged Alphabetically by Continents.

NOTE: **The Value of Foreign Coins.**—The actual or real value of gold and silver coins depend upon the quantity of pure metal contained therein and their weight and fineness. Nearly all coins contain *alloy* or inferior metal to increase their durability. In international transactions the weight of the pure metal is alone considered, not the number or denominations expressed on the coins.

The weight and fineness of coins of same denominations vary in different countries, hence they are of different value or worth. The purchasing power of the silver dollar in the United States within that country is as great for small sums as the gold dollar, but in other countries it would only be accepted for its bullion value. The Mexican dollar which passes for its face value in Mexico is worth only about 50 cents in the United States.

Therefore, in expressing the value of coins of foreign countries in the money of the United States we have undertaken to estimate their present *actual* value based upon the present coining rate in the United States. Their *home* value is of course much greater and their *market* value may be more or less according to conditions.

EUROPE.

ANDORRA.—A small Republic near the boundary line between France and Spain. *Total Area*, 175 square miles. *Total Population* 6,000. *Principal City and Population*, Andorra, 5,000.

This country has no coinage of its own and uses principally the money of France and Spain. Very little money is required.

Drafts should be drawn in Francs.

AUSTRIA-HUNGARY.—An Empire. *Total Area*, 264,512 square miles. *Total Population*, 42,694,900. *Principal Cities and Populations*, Vienna (Capital), 1,535,000. Budapesth, 582,000. Prague, 370,000. Trieste, 168,000. Lemberg, 132,000. Brunn, 96,000. Graz, 115,000. Szegedin, 88,000. Varsahely, 60,000. Krakau, 80,000.

Unit (new system) Krone or Crown=100 Heller.
Unit (old system) Florin (or Guilder) =100 Kreutzers.

Gold Coins and Value.—Quadruple Ducat ($9.16), Ducat ($2.29), Sovereign ($6.76), Half Sovereign ($3.37), Double Ducat ($4.60), 8-Florin ($3.86), 4-Florin ($1.93), 20 Crown or Krone ($4.052), 10 Crown or Krone ($2.026), Florin or Guilder (48.2 cts.)

Silver Coins and Value.—Maria Theresa Thaler (51 cts.), Crown Thaler (55 cts.), Specie Thaler (36 cts.), Vereins Thaler (36 cts.), 2 Florins (92.4 cts.), Florin (46.2 cts.), Gulden (46 cts.), Crown (17.4 cts), half Crown (8.5 cts.)

Minor Coins.—20 and 10 Heller of nickel, worth nominally 4 and 2 cents respectively, and 2 and 1 Heller of bronze, worth nominally 2-10ths. and 1-10th. of a cent respectively.

AUSTRIA-HUNGARY—Continued.

Bank Notes.—1, 5, 10, 50, 100, 500, and 1,000 Florins or Guldens.

The new unit system dates from 1892. The new Krone is equal to one-half the Florin of old system. The value of the gold Crown (or Krone) in U. S. money is 20.3 cts. and of the silver Crown 17.4 cts. at U. S. coining rate. During the change from the old to the new system, the old coins are accepted on the basis of 1 Florin for 2 Crowns, 1 Kreutzer for 2 Hellers.

Drafts should be drawn in Kronen.

BELGIUM.—A Kingdom. One of the most densely populated countries in the world. *Total Area*, 11,400 square miles. *Total Population*, 6,236,000. *Principal Cities and Populations*, Brussels (Capital), 525,000. Antwerp, 260,000. Ghent, 160,000. Liege, 162,000.

Unit—Franc=100 Centimes.

Gold Coins and Value.—100 Franc ($19.30), 50 Franc ($9.65), 20 Franc ($3.86), 10 Franc ($1.93). The value of the Gold Franc is 19.3 cts. actual.

Silver Coins and Value.—5 Franc (93.5 cts.), 2 Franc (34.7 cts.), 50 Centimes (8.7 cts.), 20 Centimes (3.5 cts.) The value of the Silver Franc is 17.4 cts. actual, except the 5 Franc piece which is of greater fineness.

Minor Coins.—20, 10 and 5 Centime pieces of nickel and 2 and 1 Centime pieces of bronze.

Paper Money.—Bank notes issued by National Bank of Belgium of the denominations of 20, 50, 100, 500 and 1,000 Francs.

Drafts should be drawn in Francs.

BULGARIA.—A tributary principality of Turkey, situated on the Black Sea. *Total Area*, 38,562 square miles. *Total Population*, 3,400,000. *Principal Cities and Populations*, Sofia (Capital), 47,000. Philippopolis, 36,000. Roustchouk, 28,000. Varna, 28,000.

Unit—Lew=100 Stotinki.

Gold Coins and Value.—50 Lew ($9.65), 20 Lew ($3.86), 10 Lew ($1.93), 5 Lew (96.5 cts.) The value of the Gold Lew is 19.3 cts.

Silver Coins and Value.—2 Lew (34.7 cts.), 1 Lew (17.4 cts.), 50 Stotinki (8.7 cts.), 20 Stotinki (3.5 cts.) The value of the Silver Lew is 17.4 cts.

Minor Coins.—20, 10, 5, and 2½ Centime pieces of nickel.

BULGARIA—Continued.

Paper Money.—Notes issued by the National Bank of Bulgaria and those of the Imperial Ottoman Bank in various denominations.

This country has practically the same monetary system as France, with coins of like value with different names.

Drafts should be drawn in Francs, Sterling or Marks.

DENMARK.—A Kingdom. Situated just north of Germany on the North Sea. *Total Area*, 15,300 square miles. *Total Population*, 2,186,000. *Principal Cities and Populations*, Copenhagen (Capital.) 380,000. Aarhus, 35,000. Odense, 32,000.

Unit—Krone=100 Ores.

Gold Coins and Value.—20 Kroner ($5.36), 10 Kroner ($2.68), Double Christian D'or ($7.88), Christian D'or ($3.94), Double Fredericks D'or ($7.88), Fredericks D'or ($3.94), Ducat ($2.24). The value of one Gold Krone or Crown is 26.8 cts.

Silver Coins and Value.—2 Crowns (49.9 cts.), 1 Crown (24.9 cts.), Half Crown, 50 Ores (12 cts.), 40 Ores (9 cts.), 20 Ores (4 cts.), 10 Ores (2 cts.)

Minor Coins.—5, 2, and 1 Ore pieces of bronze. 1 Ore is nominally worth ¼ of a cent.

Paper Money.—Bank notes issued by the National Bank of Denmark in denominations of 1, 5, 10, 100, 500, and 1,000 Kroner or Crowns.

The coins and paper money of this state circulate freely in Norway and Sweden.

Drafts should be drawn in Kroners.

ENGLAND.—See Great Britain.

FINLAND.—A Grand Duchy. *Total Area and Total Population* is included in figures of Russia. *Principal Cities and Populations*, Helsingfors, 80,000. Björneborg, 10,000. Uleäborg, 12,000. Viborg (or Wiborg), 20,000. Abo, 29,000. Nikolaieff, 20,000.

Unit—Finmark=100 Penni.

Gold Coins and Value.—50 Finmarks ($9.65), 20 Finmarks ($3.86), 10 Finmarks ($1.93).

Silver Coins and Value.—5 Finmark (93.5 cts.), 2 Finmark (34.7 cts.), 1 Finmark (17.3 cts.), 50 Penni (8.7 cts.), 25 Penni (4.3 cts.)

Minor Coins.—10 and 5 Penni of bronze.

Russian money is in general circulation.

Drafts should be drawn in Finmarks.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

FRANCE.—A Republic. *Total Area*, 204,100 square miles. *Total Population*, 38,343,200. *Principal Cities and Populations*, Paris (Capital), 2,512,000. Lyons, 438,000. Marseilles, 405,000. Bordeaux, 255,000. Lille, 200,000. Toulouse, 156,000. St. Etienne, 135,000. Nantes, 125,000. Havre, 118,000. Reims, 104,000. Roubaix, 115,000.

Unit—Franc=100 Centimes.

Gold Coins and Value.—100 Franc ($19.30), 50 Franc ($9.65), 20 Franc ($3.86), 10 Franc ($1.93), 5 Franc (96.5 cts.), Louis D'or ($4.50).

Silver Coins and Value.—5 Franc (93.5 cts.), 2 Franc (34.7cts.), 1 Franc (17.4 cts.), 50 Centimes (8.7 cts.), 20 Centimes, (3.5 cts.).

Minor Coins.—10 and 5 Centime pieces of bronze. Coins of 2 and 1 Centime pieces of bronze are also coined but are not in general circulation.

Paper Money.—Notes issued by the Bank of France in denominations of 25, 50, 100, 500, and 1,000 Francs.

The Gold Franc is worth 19.3 cts., and the Silver Franc, owing to its reduced fineness, only 17.4 cts.

Drafts should be drawn in Francs.

GERMANY.—An Empire. *Total Area*, 211,168 square miles. *Total Population*, 52,300,000. *Principal Cities and Population*, Berlin (Capital), 1,734,000. Munich, 408,000. Hamburg, 682,000. Leipzig, 395,000. Cologne, 330,000. Dresden, 334,000. Magdeburg, 242,000. Frankfort, a. M., 230,000. Hanover, 210,000. Breslau, 375,000. Bremen, 196,000. Königsberg, i. Pr., 176,000. Stuttgart, 160,000.

Unit—Reichs-Mark=100 Pfennige.

Gold Coins and Value.—20 Mark ($4.76), 10 Mark ($2.38), 5 Mark ($1.19).

Silver Coins and Value.—5 Mark ($1.04), 2 Mark (41.6 cts.), 1 Mark (20.8 cts.), 50 Pfennige (10.4 cts.), 20 Pfennige (4.2 cts.), One Thaler (71.4 cts.), Two Thaler ($1.41).

Minor Coins.—10 and 5 Pfennige of nickel and 2 and 1 Pfennige of bronze, also a 20 Pfennige piece of nickel.

Paper Money.—Bank notes in denominations of 5, 10, 20, 50, 100, 500, and 1,000 Marks, and Government notes of 5, 10, and 20 Marks.

Drafts should be drawn in Marks.

GIBRALTAR.—A British Colony. Situated on the extreme southern coast of Spain at the entrance to the Mediterranean Sea. No data as to *Area* or *Population*. *Principal City*, Gibraltar.

This country still uses the Spanish monetary system, regardless of numerous attempts to inaugurate the British system. England,

GIBARALTAR—Continued.

however, furnishes bronze pieces which are accepted at 48 to the 5-Peseta piece of Spain. British money is not refused. The Anglo-Egyptian Bank has a branch here.

Drafts should be drawn in Pounds Sterling.

GREAT BRITAIN.—Comprises England, Ireland, Scotland, and Wales. A Kingdom. *Total Area*, 120,980 square miles. *Total Population*, 38,105,000.

ENGLAND.—*Principal Cities and Population*, London (Capital), 4,422,000. Liverpool, 633,000. Manchester, 530,000. Birmingham, 501,000. Leeds, 402,000. Sheffield, 347,000. Bristol, 232,000. Bradford, 229,000. Nottingham, 230,000. Hull, 220,000. Salford, 211,000. New Castle, 212,000. Leicester, 200,000. Portsmouth, 179,000. Oldham, 261,000. Whalley, 193,000.

IRELAND.—Belfast, 260,000. Cork, 76,000. Dublin, 362,000.

SCOTLAND.—Aberdeen, 125,000. Dundee, 165,000. Edinburg, 285,000. Glasgow, 710,000.

Unit—Sovereign or Pound=20 Shillings.
12 Pence=1 Shilling.
4 Farthings=1 Pence.

Gold Coins and Value.—5 Sovereign ($24.33), Double Sovereign ($9.73), Sovereign or Pound ($4.866), Half Sovereign ($2.433), 5 Guineas ($25.55), 2 Guineas ($10.22), Guinea (21 Shillings), ($5.11), Half Guinea ($2.55), Quarter Guinea ($1.27), Third Guinea ($1.70).

Silver Coins and Value.—Crown (5 Shillings) ($1.087), Double Florin (97 cts.), Half Crown (54.4 cts.), Florin (43.5 cts.), Shilling (21.7 cts.), Six-Pence (10.8 cts.), Four-Pence (7.2 cts.), Three-Pence (5.4 cts.), Two-Pence (3.6 cts.), Penny (1.8 cts.).

The 4, 2, and 1 Penny pieces are not in general circulation.

Minor Coins.—Pence, Half-Pence, and Farthings of bronze. The Farthing is equal to about one-half of one cent U. S. money.

Paper Money.—Bank notes of 1, 5, 10, 20, 50, 100, 200, 300, and 500 Pounds.

The nominal value of the Shilling is 24⅓ cts., and the Penny 2 1-26 cts.

Drafts should be drawn in Pounds Sterling.

GREECE.—A Kingdom. Situated on the Mediterranean Sea. *Total Area*, 25,041 square miles. *Total Population*, 2,187,200. *Principal Cities and Population*, Athens (Capital), 150,000. Fireus, 36,000. Patras, 36,000.

Unit—Drachma=100 Lepta.

GREECE—Continued.

Gold Coins and Value.—100 Drachma ($19.30), 50 Drachma ($9.65), 20 Drachma ($3.86), 10 Drachma ($1.93), 5 Drachma (96.4 cts.).

Silver Coins and Value.—5 Drachma (93.5 cts.), 2 Drachma (34.7 cts.), 1 Drachma (17.4 cts.), 50 Lepta (8.7 cts.), 25 Lepta (4.3 cts.).

Minor Coins.—20, 10, and 5 Lepta of nickel.

Paper Money.—Notes issued by three banks of various denominations.

Drafts should be drawn in Francs, unless desired in Sterling or Marks.

HOLLAND.—Same as the Netherlands. See Netherlands.

IRELAND.—See Great Britain.

ITALY.—A Kingdom. *Total Area*, 111,100 square miles. *Total Population*, 28,500,000. *Principal Cities and Population*, Rome (Capital), 475,000. Naples, 525,000. Milan, 436,000. Turin, 348,000. Genoa, 220,000. Florence, 205,000. Venice, 166,000. Bologna, 150,000.

Unit—Lire=100 Centesimi.

Gold Coins and Value.—100 Lire ($19.30), 50 Lire ($9.65), 20 Lire ($3.86), 10 Lire ($1.93), 5 Lire (96 cts.).

Silver Coins and Value.—5 Lire (93.5 cts.), 2 Lire (34.7 cts.), 1 Lire (17.4 cts.), 50 Centesimi (8.7 cts.), 20 Centesimi (3.5 cts.).

Minor Coins.—10, 5, 2, and 1 Centesimi pieces of bronze.

Paper Money.—Bank notes in denominations of 5, 10, 20, 50, 100, 250, 500, and 1,000 Lire.

It will be noted that the money of this country is the same as that of France, but of different name.

Drafts should be drawn in Lire.

MONACO.—A small Principality. Situated on the southeast coast of France, on the Mediterranean Sea. *Total Area*, 8 square miles. *Total Population*, 13,300. *Principal Cities and Population*, Monaco, 5,000. Monte Carlo, 4,000.

Monte Carlo is especially noted as a resort for gambling.

The money of England, France, and Germany, as well as that of other European countries, circulates.

Drafts should be drawn in Francs.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

NETHERLANDS (THE).—Same as Holland. A Kingdom. *Total Area*, 12,648 square miles. *Total Population*, 4,733,000. *Principal Cities and Populations*, The Hague (Capital), 190,000. Amsterdam, 490,00. Rotterdam, 280,000. Utrecht, 90,000. Groningen, 60,000. Haarlem, 55,000. Leyden, 45,000.

Unit—Florin or Gulden=100 Cents.

Gold Coins and Value.—10 Gulden or Florins ($4.02), 5 Gulden ($2.01), Double Ducat ($4.56), Ducat ($2.28).

Silver Coins and Value.—Rix-Daler (2½ Florins, 52 cts.), Florin (20.8 cts.), Half Florin (10.4 cts.), 25 Cents (9.5 cts.), 10 Cents (3.7 cts.), 5 Cents (1.8 cts.).

Minor Coins.—2½, 1, and ½ Cent pieces of copper.

Paper Money.—Issued by the Government and banks in denominations of 25, 40, 60, 100, 200, 300, and 1,000 Florins.

The terms Florin, Gulden and Guilder are simply different translations of the name of the same coin.

Drafts should be drawn in Gulden.

NORWAY.—A Kingdom. One of the Scandinavian countries. *Total Area*, 124,445 square miles. *Total Population*, 2,000,000. *Principal Cities and Populations*, Christiana (Capital), 150,000. Bergen, 60,000. Trondhjem, 26,000. Stavanger, 25,000. Drammen, 22,000.

Unit—Krone or Crown=100 Ore.

Gold Coins and Value.—20 Crown ($5.36), 10 Crown ($2.68), Double Christian D'Or ($7.88), Christian D'Or ($3.94), Ducat ($2.24).

Silver Coins and Value.—2 Crown (49.9 cts.), 1 Crown (24.9 cts.), Half Krone, 50 Ore (12 cts.), 40 Ore (9 cts.), 20 Ore (4 cts.), 10 Ore (2 cts.).

Minor Coins.—5, 2, and 1 Ore pieces of bronze. The 1 Ore piece is worth nominally ¼ of 1 cent.

Paper Money.—Notes issued by banks in denominations of 1, 5, 10, 50, 100, 500, and 1,000 Kroner or Crowns.

Drafts should be drawn in Kroner.

PORTUGAL.—A Kingdom. *Total Area*, 34,038 square miles. *Total Population*, 4,708,200. *Principal Cities and Populations*, Lisbon (Capital), 358,000. Oporto, 140,000. Braga, 20,000.

Unit—Milreis=1,000 Reis.

Gold Coins and Value.—10 Milreis or Coroa ($10.80), 5 Milreis or Half Coroa ($5.40), 2 Milreis or 1-5 Coroa ($2.16), 1 Milreis or 1-20 Coroa ($1.08).

Silver Coins and Value.—500 Reis (47.6 cts.), 200 Reis (19 cts.), 100 Reis or Testoon (9.5 cts.), 50 Reis (4.8 cts.).

Minor Coins.—40, 20, 10, 5, and 3 Reis of bronze. The 5-Reis piece is worth nominally ½ of 1 cent.

PORTUGAL—Continued.

Paper Money.—Notes issued by eight banks, of which the Bank of Portugal is the principal one, in various denominations.

In this country it is the practice to count large sums in *contos* or thousands of milreis, thus 100 contos = 100,000 milreis.

The Sovereign or Pound of Great Britain passes current, as does also the gold coins of other nations.

Drafts should be drawn in Sterling, Francs, or Marks.

ROUMANIA.—A Kingdom. *Total Area*, 34,100 square miles. *Total Population*, 4,709,000. *Principal Cities and Populations*, Bucharest (Capital), 232,000. Jassy, 90,000. Botosani, 40,000. Galatz, 81,000. Crajova, 30,000. Ploesci, 34,000.

Unit—Lei=100 Bani.

Gold Coins and Value.—50 Lei ($9.65), 20 Lei ($3.86), 10 Lei ($1.93), 5 Lei (96.5 cts.).

Silver Coins and Value.—5 Lei (87 cts.), 2 Lei (34.8 cts.), 1 Lei (17.4 cts.), 50 Bani (8.7 cts.), 20 Bani (3.5 cts.).

Minor Coins.—10 and 5 Bani pieces of bronze.

Paper Money.—Notes issued by National Bank in various denominations.

This country has practically the same monetary system as France, with coins of same value under different names.

Drafts should be drawn in Lei, Francs, Sterling, or Marks.

RUSSIA.—(Europe and Asia.) An Empire. *Total Area*, 8,660,280 square miles. *Total Population*, 118,100,000. *Principal Cities and Populations*, St. Petersburg (Capital), 1,035,000. Moscow, 822,000. Warsaw, 532,000. Odessa, 333,000. Riga, 200,000. Kharkoff, 196,000. Kazan, 138,000. Kieff (Kiew), 193,000. Lodz, 150,000. Slobodishtchi, 170,000. Wilna, 110,000.

Unit—Ruble=100 Kopecks.

Gold Coins and Value.—Imperial, old (15 Rubles, $7.72), Half Imperial, old (7½ Rubles, $3.86), Ducat (3 Rubles, $2.39), 10 Rubles, new ($7.72), 5 Rubles, new ($3.86).

Silver Coins and Value.—Ruble (50 cts.), Half Ruble (25 cts.), Quarter Ruble (25 Kopecks, 12.5 cts.), 20 Kopecks (10 cts.), 15 Kopecks (7.6 cts.), 10 Kopecks (5 cts.), 5 Kopecks (2.5 cts.).

A Kopeck has the nominal value of ¾ of 1 cent in U. S. money.

Minor Coins.—5, 2, and 1 Kopeck pieces of copper.

Paper Money.—Notes issued by the Bank of Russia in denominations of 1, 3, 5, 25, and 100 Rubles.

Gold and silver are usually at par with paper money.

Drafts should be drawn in Rubles.

SCOTLAND.—See Great Britain.

SERVIA.—A Kingdom. *Total Area*, 19,050 square miles. *Total Population*, 2,257,000. *Principal Cities and Populations*, Belgrade (Capital), 58,000. Nisch, 20,000.

Unit—Dinar=100 Paras.

Gold Coins and Value.—Milan d'Or (20 Dinar, $3.86), 10 Dinar ($1.93), 5 Dinar (96.5 cts.).

Silver Coins and Value.—2 Dinar (34.7 cts.), 1 Dinar (17.4 cts.), 50 Paras (8.7 cts.), 20 Paras (3.5 cts.).

Minor Coins.—20, 10, and 5 Paras of nickel, and 10, 5, and 1 Paras of bronze.

Paper Money.—Notes issued by the National Bank of Servia.

This country has practically the same monetary system as France, with coins of same value under different names.

Drafts should be drawn in Francs, Sterling, or Marks.

SPAIN.—A Kingdom. *Total Area*, 197,670 square miles. *Total Population*, 17,570,000. *Principal Cities and Populations.* Madrid (Capital), 510,000. Barcelona, 285,000. Valencia, 180,000. Seville, 145,000. Malaga, 140,000. Murcia, 100,000.

Unit—Peseta=100 Centimos.

Gold Coins and Value.—25 Peseta ($4.825), Doubloon, old ($5.017), 50 Peseta ($9.65), Alfonso ($4.76).

Silver Coins and Value.—5 Peseta or Dollar (87 cts.), 2 Peseta (34.8 cts.), Peseta (17.4 cts.), 50 Centimo (8.7 cts.), 20 Centimo (3.5 cts.).

Minor Coins.—5, 2, and 1 Centimo pieces of bronze.

Paper Money.—Notes issued by the Bank of Spain in denominations of 25, 50, 100, 500, and 1,000 Pesetas.

Under former monetary system pieces called Escudos were coined, 1 Escudo being equal to about 2½ of the present Pesetas. It will be noticed that the money of Spain is similar to that of France.

Drafts should be drawn in Pesetas, Francs, Sterling, or Marks.

SWEDEN.—A Kingdom. *Total Area*, 170,970 square miles. *Total Population*, 4,774,500. *Principal Cities and Population*, Stockholm (Capital), 275,000. Göteborg, 115,000. Malmö, 51,000.

Unit—Krone or Crown=100 Ore.

Gold Coins and Value.—20 Crown ($5.36), 10 Crown ($2.68), Ducat ($2.23).

Silver Coins and Value.—2 Crown (49.9 cts.), 1 Crown (24.9 cts.), 50 Ore (12 cts.), 40 Ore (9 cts.), 20 Ore (4 cts.), 10 Ore (2 cts.).

Minor Coins.—5, 2, and 1 Ore pieces of bronze. The 1 Ore piece is worth nominally ¼ of 1 cent.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

SWEDEN—Continued.

Paper Money.—Notes issued by banks in denominations of 1, 5, 10, 50, 100, 500, and 1,000 Kroner or Crowns.

The Krone and Crown are the same. The monetary system of Sweden is the same as Norway and Denmark.

Drafts should be drawn in Kroner.

SWITZERLAND.—A Republic. *Total Area*, 15,976 square miles. *Total Population*, 2,934,000. *Principal Cities and Populations*, Berne (Capital), 50,000. Basle, 94,000. Geneva, 84,000. Zurich, 148,000.

Unit—Franc=100 Centimes.

Gold Coins and Value.—100 Franc ($19.30), 50 Franc ($9.65), 20 Franc ($3.86), 10 Franc ($1.929), 5 Franc (96.5 cts.)

Silver Coins and Value.—5 Franc (93.5 cts.), 2 Franc (34.7 cts.), 1 Franc (17.4 cts.), 50 Centimes (8.7 cts.), 20 Centimes (3.5 cts.).

Minor Coins.—5 Centime piece of nickel and 1 Centime piece of bronze.

Paper Money.—Notes issued by banks in denominations of 5 Francs and upwards.

The monetary system of this country is the same as that of France, and its coins bear same names.

Drafts should be drawn in Francs.

TURKEY.—(Europe and Asia.) An Empire. *Total Area*, 1,147,840 square miles. *Total Population*, 27,694,500. *Principal Cities and Populations*, Constantinople (Capital), 900,000. Adrianople, 100,000. Damascus, 200,000. Smyrna, 200,000. Bagdad, 180,000. Aleppo, 130,000. Beyrout, 100,000. Salonica, 150,000. Rhodes, 100,000.

Unit—Piastre=40 Paras of 3 Aspes.

Gold Coins and Value.—500 Piastre ($21.98), 250 Piastre ($10.99), 100 Piastre ($4.396), 50 Piastre ($2.198), 25 Piastre ($1.10). The 100 Piastre piece is the Turkish Pound or Medjidie or Lira, the 500 Piastre is the 5 Pound, the 250 Piastre is 2½ Pound, the 50 Piastre is ½ Pound, and the 25 Piastre is ¼ Pound. The Pound is worth $4.396, which, it will be noted, is considerably less than the English Pound.

Silver Coins and Value.—20 Piastre (82.8 cts.), 10 Piastre (41.4 cts.), 5 Piastre (20.7 cts.), 2 Piastre (8.3 cts.), 1 Piastre (4.4 cts.).

Minor Coins. A Para is equal to 11-100ths of a cent, and the Aspes is equal to 11-300ths of a cent. No data as to the denominations of these coins.

Paper Money.—Notes issued by the Imperial Ottoman Bank in various denominations of Piastres.

Drafts should be drawn in Sterling, Francs, or Marks.

WALES.—See Great Britain.

ASIA.

ADEN.—A British port on the southwest coast of Arabia, near the entrance to the Red Sea.

British money or that of Turkey would, no doubt, pass current.

Drafts should be drawn in Sterling.

AFGHANISTAN.—An Empire, adjoining India on the northwest. *Total Area*, 279,000 square miles. *Total Population*, 4,000,000. *Principal Cities and Populations*, Cabool, or Kabul (Capital), 60,000. Kandahar, 60,000. Herab, 45,000. Andkhui, 30,000.

The coinage of this country has been so small it may be said it has practically no coinage. The money of account is the Rupee of India, supplied from Russia, India, and Persia. Russian and British coins and paper money circulate.

Drafts should be drawn in Mexican Dollars, Sterling, Francs, or Marks.

BALUCHISTAN.—An Empire. Northeast of India, on the Arabian Sea. *Total Area*, 130,000 square miles. *Total Population*, 500,000. *Principal Cities and Populations*, Kelat (Capital), 15,000. Kurrachee, 75,000. Bela, 10,000.

This country keeps its accounts in and uses the same monetary system as India.

Drafts should be drawn in Mexican Dollars, Sterling, Francs, or Marks.

BRITISH INDIA.—An Empire. Controlled by Great Britain. *Total Area*, 1,568,960 square miles. *Total Population*, 287,223,400. *Principal Cities and Populations*, Calcutta (Capital), 980,000. Bombay, 825,000. Madras, 455,000. Hyderabad, 420,000. Lucknow, 275,000. Benares, 225,000. Delhi, 200,000. Mandalay, 190,000. Cawnpore, 190,000. Agra, 170,000. Allahabad, 180,000. Bangalore, 180,000. Lahore, 180,000. Patna, 170,000. Rangoon, 180,000.

Unit—Rupee of 16 Annes=4 Pice @ 3 Pie.

Gold Coins and Value.—Mohur (15 Rupees, $7.10), 10 Rupees ($4.72), 5 Rupees ($2.36), Double Mohur ($14.20).

Silver Coins and Value.—Rupee (20.6 cts.), Half Rupee (10.3 cts.), Quarter Rupee (4 Anna, 5.2 cts.), Eighth Rupee (2 Anna, 3 cts.). The nominal or home value of the silver Rupee is about 46 cts.

Minor Coins.—Double Pice or Half Anna, Pice or Quarter Anna, Half Pice or Eighth Anna, Pie or Twelfth Anna pieces of copper or bronze. The Pie is worth less than one-quarter of a cent U. S. money.

Paper Money.—Notes issued by Government only, in denominations of 5 Rupees and upwards.

BRITISH INDIA—Continued.

The States of Padukota, Sindia, Nepal, Dewas, and Punjab in India still have coinage of their own and use their own pieces, but coins of India circulate freely.

Drafts should be drawn in Sterling or Mexican Dollars.

CEYLON.—(Island.) A British Colony. An island off the southeast coast of India. *Total Area*, 25,364 square miles. *Total Population*, 3,008,000. *Principal City*, Colombo (Capital); *Population*, 110,500.

Unit—Rupee=100 Cents.

Gold Coins.—None coined.

Silver Coins and Value.—50 Cents (22.2 cts.), 25 Cents (11.1 cts.), 10 Cents (5.5 cts.).

Minor Coins.—5, 1, and ½ Cents of copper. One hundred of these copper Cents are worth about 44½ cts. U. S. money.

Paper Money.—Notes issued by Government in denominations of 5, 10, 50, 100, 500, and 1,000 Rupees.

Drafts should be drawn in Sterling.

CHINA.—An extensive Empire in Eastern Asia. *Total Area*, 4,468,700 square miles. *Total Population*, 402,680,000. *Principal Cities and Populations*, Pekin (Capital), 1,300,000. Canton, 1,600,000. Suchow, 500,000. Tientsin, 950,000. Chang Chau, 800,000. Hangehan, 800,000. Woo-Ching, 800,000. Foo-Chow, 650,000. Shanghai, 380.000. Ching-Tu, 800,000. Chu-Kiang, 700,000. Hang-Chow, 800,000. Han-Kow, 800,000. Singan-Fu, 900,000. Soo-Chow, 900,000. Tamsui, 900,000.

New Unit—Dollar=100 Cents.

Gold Coins.—No gold coined.

Silver Coins.—Dollar, Half Dollar, 20 Cent, 10 Cent, and 5 Cent pieces. The actual coinage value of these pieces has not yet been determined, but the Dollar is worth about 50 cts. in U. S. money. The silver coins in use are the Mexican Peso, or Dollar, and smaller denomination pieces, but other silver coins are in circulation. Many of the silver coins are cut into pieces, which, in order to pass current, are stamped or "chopped" by some well-known merchant or by a local Governor. Silver coins called Tael are also quite generally used. Their present value varies according to the locality, as follows: Amoy Tael, 69.1 cts.; Canton Tael, 70 cts.; Chefoo Tael, 66.1 cts.; Chin Kiang Tael, 67.5 cts.; Fuchau Tael, 64 cts.; Haikwan Tael, 70.3 cts.; Hankow Tael, 64.7 cts.; Niuchwang Tael, 64.8 cts.; Ningpo Tael, 66 5 cts.; Shanghai Tael, 63.1 cts.; Swatow Tael, 63.9 cts.; Takau Tael, 69.6 cts.; Tientsin Tael, 67 cts. The divisions of the Tael are nominally: 1 Tael=10 Mace of 10 Candareens or Fun, each Candareen being equal to 10 Cash or Li.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

CHINA—Continued.

Minor Coins.—Pieces called "Cash" are coined of copper and zinc with a square hole in the center. One thousand of these are usually issued on a string and are worth about $1.02, or the same as a Mexican Dollar, or nominally 1-10th of a cent each.

Paper Money.—Notes issued by the Bank of Hong Kong, as well as some other foreign banks, circulate freely, and in some of the provinces local banks are authorized to issue notes. We have no data as to their denomination.

Drafts should be drawn in Mexican Dollars, although drafts in Sterling are acceptable.

COREA (or Korea).—An Empire. *Total Area*, 85,000 square miles. *Total Population*, 10,529,000. *Principal City*, Seoul (Capital); *Population*, 250,000.

Unit—Yang = 100 Cash.

Although a mint has been established, no coinage has as yet taken place. The currency in use consists of Japanese coins, Mexican Dollars, and the copper "Cash," similar to those of China, but of less value. The proposed coinage will be the unit Yang of silver, worth about 12 cts. U. S. money. Nickel and copper pieces are also to be used.

Drafts should be drawn in either Mexican or U. S. Dollars.

DUTCH EAST INDIES.—(Islands in Pacific Ocean.) A Netherland colony of islands, comprising Java, Sumatra, and Borneo, located southeast of China. *Total Area*, 719,674 square miles. *Total Population*, 32,000,000. *Principal Cities and Populations*, Batavia, Java (Capital), 110,000. Samarang, Java, 65,000. Sourabaya, Java, 140,000. Brunner, Borneo, 20,000. Sarawak, Borneo, 18,000. Bencoolan, Sumatra (Capital), 40,000.

Unit—Florin = 100 Cents.

The monetary system of these islands is the same as that of the Netherlands.

Paper Money.—Notes are issued by the Bank of Java.

Drafts should be drawn in Florins or Mexican Dollars.

HONG KONG.—British Colony. An island off the southeast coast of China. *Total Area*, 30 square miles. *Total Population*, 222,000. *Principal City*, Victoria (Capital); *Population*, 136,000.

Unit—Dollar = 100 Cents.

Gold Coins.—No gold pieces coined.

Silver Coins and Value.—Dollar (49 cts.), Half Dollar (24.5 cts.), 20 Cent (10 cts.), 10 Cent (5 cts.), 5 Cent (2.5 cts.). The Mexican silver Dollar and divisions are in general circulation.

HONG KONG—Continued.

Minor Coins.—1 Cent of bronze. A coin called "Cash," similar to the Chinese coin of same name, is used to a large extent. One "Cash" is worth nominally 1-10th of a cent.

Paper Money.—Notes issued by banks in denominations of $5.00 and upwards. Notes of some of the banks show on their face their value in both English and Chinese characters.

Drafts should be drawn in Mexican Dollars or Sterling.

INDIA.—See British India.

INDO-CHINA.—French Dependency, comprising States of Annam, Laos, Cambodia, Tong-King, and Cochin China. *Total Area*, 315,122 square miles. *Total Population*, 22,691,000. *Principal Cities and Populations*, Saigon (Capital), 90,000. Hanoi, 150,000. Pnom Penh, 50,000. Hue, 150,000.

Unit—Piaster = 100 Cents.

Gold Coins.—None.

Silver Coins and Value.—Piaster (47.5 cts.), 50 Cent (23.7 cts.), 25 Cent (11.9 cts.), 10 Cent (4.8 cts.), 5 Cent (2.4 cts.).

Minor Coins.—One Cent of bronze.

Paper Money.—Notes of various denominations in Piasters issued by French Bank of Indo China.

The money of India and China, as well as that of France, passes current.

Drafts should be drawn in Mexican Dollars or Francs.

JAPAN.—An Empire, consisting of four large and many small islands. *Total Area*, 162,655 square miles. *Total Population*, 49,307,000. *Principal Cities and Populations*, Tokyo (Capital), 1,370,000. Osaka, 490,000. Kyoto (Saikyo), 265,000. Nagoya, 200,000. Yokohama, 185,000. Kobe, 155,000.

Unit—Yen = 100 Sen.

Gold Coins and Value.—20 Yen ($19.94), 10 Yen ($9.97), 5 Yen ($4.98), 2 Yen ($1.99), Yen (99.7 cts.).

Silver Coins and Value.—Trade Yen (48 cts.), Yen (88 cts.), 50 Sen (44.4 cts.), 20 Sen (17.6 cts.), 10 Sen (8.8 cts.), 5 Sen (4.4 cts.).

Minor Coins.—5 Sen pieces of nickel and 2, 1, and ½ Sen pieces of copper.

Paper Money.—Notes issued by Bank of Japan in denominations of 20 Sen and upwards.

The Mexican Dollar passes current throughout Japan.

Drafts should be drawn in Yen, Mexican Dollars, or Sterling.

JAVA.—See Dutch East Indies.

KOREA.—See Corea.

NEPAL.—A Kingdom, situated northeast of India. *Total Area*, 54,000 square miles. *Total Population*, 2,000,000. *Principal City*, Khatmandu; *Population*, 20,000.

No data as to actual coinage of this country, but the money principally in use is that of British India and China.

Drafts should be drawn in Sterling or Mexican Dollars.

PALESTINE.—See Turkey.

PERSIA.—A Kingdom. *Total Area*, 630,000 square miles. *Total Population*, 9,000,000. *Principal Cities and Populations*, Teheran (Capital), 210,000. Tabriz, 180,000. Ispahan, 80,000. Meshed, 60,000. Barfurush, 50,000.

Unit—Toman = 10 Krans of 20 Shahis.

Gold Coins and Value.—2 Toman ($3.409), 1 Toman ($1.70), Half Toman (85 cts.).

Silver Coins and Value.—5 Krans (39.5 cts.), 2 Krans (15.8 cts.), 1 Kran (7.9 cts.), Half Kran (3.9 cts.), Quarter Kran (2 cts.).

Minor Coins.—2, 1, and Half Shahis of copper. The Shahis is worth nominally 17-20ths of a cent.

Paper Money.—Notes issued by Imperial Bank of Persia in denominations of 1, 2, 3, 5, 10, 20, 25, 50, 100, 500, and 1,000 Tomans.

Drafts should be drawn in Sterling, Francs, or Marks, as desired.

PHILIPPINE ISLANDS.—Pacific Ocean. Until recently a Spanish colony, but now owned by the United States. The principal islands of this group are Luzon, Mindoro, Negros, Mindanao, Sebu, Panai, Leite, and Bohul, but there are many other smaller islands, nearly two thousand in number. *Total Area*, 114,326 square miles. *Total Population*, 8,000,000. *Principal Cities and Populations*, Manila (Capital), 300,000. Lipa, 44,000. Banang, 36,000. Batangas, 36,000. Laoag, 37,000. Balayan, 17,000. Tibi, 14,000. Albay, 13,000. Bacalor, 13,000. Bulacan, 12,000. Cebu, 12,000. Illoilo, 12,000. Borangan, 11,000.

These islands have no coinage of their own and have heretofore been supplied with coins from the Spanish mints, of gold dollars worth at United States coining rate 98.4 cts., and with silver dollars worth about 52 cts. Preference, however, is given to the Mexican silver dollar, worth about 50 cts. Minor coins in cents of bronze have also been supplied by Spanish mints. A local bank at Manila issues bank notes. Accounts are kept in dollars and cents. The money of the United States passes current, and no doubt provision will soon be made to supply these islands from the United States mints.

Drafts should be drawn in Mexican or U. S. Dollars.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

RUSSIA.—See Russia in Europe.

SIAM.—A Kingdom. Situated in the southeastern portion of Asia. *Total Area,* 220,000 square miles. *Total Population,* 10,000,000. *Principal Cities and Populations,* Bangkok (Capital), 600,000. Yuthia, 40,000.

Unit—Tical=64 Lots of 100 Cowries.

The Tical is a small bit of silver bearing a stamp, worth about 60 cts. Intermediate pieces are, however, similar to coins. Cowries, made of shells, are not now used, but were formerly the principal medium. Small coins of pewter and copper have been introduced to take the place of shells. The equivalents are: 800 Cowries equal 1 Faung; 1 Bat or Tical equal 4 Salungo; about 6,400 Cowries equal 1 Tical; 220 Cowries equal about 2 cts.; 1 Lot is equal to about 1 cent; 5 Ticals are equal to about $1.50. Bank notes issued by outside banks are in circulation. The money of India and Indo-China, as well as Mexican Dollars, circulate.

Drafts should be drawn in Mexican Dollars or Sterling.

STRAITS SETTLEMENTS.—(Islands.) A British colony of islands just off the southern coast of the Malay Peninsula and just east of the island of Sumatra. These islands are located in the direct line of ocean travel from Hong Kong and the Philippine Islands to the Indian Ocean. Upon these islands are located the important British ports of Singapore and Penang.

The unit of money in use is the Dollar, equal to 100 cents, the same as at Hong Kong. British money and Mexican Dollars are in general use, but accounts are kept in dollars and cents. The British Dollar used here is rated the same as the Mexican Dollar (about 50 cts.).

Drafts should be drawn in Sterling or Mexican Dollars.

SUMATRA.—See Dutch East Indies.

TURKEY.—See Turkey in Europe.

AFRICA.

ABYSSINIA.—An Italian Dependency. Situated in eastern part of Africa. *Total Area,* 1,050,000 square miles. *Total Population,* 3,500,000. *Principal Cities and Populations,* Ankober (Capital), 7,000. Gondar, 5,000. Axum, 5,000.

This country has no mints of its own, but is supplied by Italy with silver dollars and divisional pieces known as Eritrean Dollars, as follows: Dollar, Half Dollar, Quarter Dollar, and Tenth Dollar. These pieces are worth nominally about 93½, 35, 23½, and 9½

ABYSSINIA—Continued.

cts. respectively. There is also in use the Austrian Maria Theresa Thaler or Dollar, worth nominally about $1.03. British money circulates, as does also Spanish money.

Drafts should be drawn in Sterling, Francs, Lire, or Marks, as desired.

ALGERIA.—An important French Colony on the north coast of Africa. *Total Area,* 184,474 square miles. *Total Population,* 4,429,421. *Principal Cities and Populations,* Algiers (Capital), 100,000. Oran, 75,000. Bone, 31,000. Constantine, 47,000. Tiemcen, 30,000. Blidah, 25,000. Gardaia, 30,000. Mustapha, 25,000. Ouzon, 26,000.

Unit—Franc=100 Centimes.

Gold Coins and Value.—100 Franc ($19.30), 50 Franc ($9.65), 20 Franc ($3.86), 10 Franc ($1.93), 5 Franc (96.5 cts.).

Silver Coins and Value.—5 Franc (93.5 cts.), 2 Franc (34.7 cts.), 1 Franc (17.4 cts.), 50 Centimes (8.7 cts.), 20 Centimes (3.5 cts.).

Minor Coins.—10 and 5 Centime pieces of bronze. The nominal value of the 5 Centime piece is about 1 Cent.

Paper Money.—Bank notes issued by the Bank of Algeria in various denominations.

Drafts should be drawn in Francs or Sterling, as desired.

ANGOLA.—A Portuguese Colony on the west coast of Africa. *Total Area,* 517,000 square miles. *Total Population,* 3,500,000. *Principal City,* St. Paul de Loando (Capital); *Population,* 8,000,

No data as to coins in actual use, but presumably the money of Portugal and Great Britain is used.

Drafts should be drawn in Sterling or Francs, as desired.

CAPE COLONY.—(Cape of Good Hope.) A British Colony on the extreme southern coast of Africa. *Total Area,* 276,900 square miles. *Total Population,* 1,799,900. *Principal Cities and Populations,* Cape Town (Capital), 84,000. Kimberley, 30,000. Port Elizabeth, 23,000.

Unit—Pound=20 Shilling.
1 Shilling=12 Pence.

The gold, silver, and minor coins in use in this country are the same as in Great Britain. Notes issued by banks in denominations of 1 Pound, 5 Pounds, 10 Pounds, and 20 Pounds.

The unorganized territories of Bechuanaland and Mashonaland are under British control and use the money system of Great Britain.

Drafts should be drawn in Sterling.

CAPE OF GOOD HOPE.—See Cape Colony.

CONGO FREE STATE.—Belgian Colony. *Total Area,* 900,000 square miles. *Total Population,* 30,000,000. *Principal City,* Boma (Capital); population unknown.

Unit—Franc=100 Centimes.

Gold Coins.—None coined.

Silver Coins and Value.—5, 2, 1, and Half Franc pieces of the same value as the Franc piece of same denomination of France.

Minor Coins.—10, 5, 2, and 1 Centime pieces of copper.

Drafts should be drawn in Sterling or Francs, as desired.

EGYPT.—An Empire in northeastern Africa. *Total Area,* 300,000 square miles. *Total Population,* 6,750,000. *Principal Cities and Populations,* Cairo (Capital), 375,000. Alexandria, 230,000. Damietta, 34,000.

Unit—Egyptian Pound=100 Piastres of 10 Ochr-el-guerche.

Gold Coins and Value.—Pound (100 Piastres, $4.943), Half Pound (50 Piastres, $2.47), 20 Piastre (98.8 cts.), 10 Piastre (49.4 cts.), 5 Piastre (24.7 cts.).

Silver Coins and Value.—20 Piastre (47.2 cts.), 10 Piastre (23.6 cts.), 5 Piastre (11.3 cts.), 2 Piastre (4.7 cts.), 1 Piastre (2.9 cts.).

Minor Coins.—5, 2, and 1 Ochr-el-guerches of nickel, and Half and Quarter Ochr-el-guerches of bronze. The quarter piece is worth about one-eighth of a cent in U. S. money.

Paper Money.—None issued.

The gold coins of other countries are accepted at their value.

Drafts should be drawn in Sterling, payable at current rate on London.

ERITREA.—An Italian Colony on the northeast coast of Africa, bordering on the Red Sea. *Total Area,* 88,500 square miles. *Total Population,* 450,000. *Principal City,* Massowah; *Population,* 9,000.

This country is supplied by Italy with what are known as Eritrean Dollars, which are of silver in denominations of Dollar, Half Dollar, Quarter Dollar, and Tenth Dollar, and are worth about 93½, 35, 23½, and 9½ cts. respectively. British and Spanish money, as well as the silver dollar known as the Maria Theresa Dollar, are in circulation.

Drafts should be drawn in Sterling or Lire.

GERMAN EAST AFRICA.—A German Protectorate on the southeastern coast of Africa. *Total Area,* 385,000 square miles. *Total Population,* 4,000,000. *Principal Cities and Populations,* Dares Salaam (Capital), 10,000. Bagamayo, 13,000. Kilwa, 10,000.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

GERMAN EAST AFRICA—Continued.

This country uses a system much like that of India, the Rupee, but of 100 Cents or Pesas. Silver coins are 2, 1, Half and Quarter Rupees. No data as to value. Minor coins of 5, 2, and 1 Cent or Pesa of bronze.

Drafts should be drawn in Sterling or Marks.

KONGO FREE STATE.—See Congo Free State.

LIBERIA.—A Republic. Situated on western coast of Africa. *Total Area*, 48,000 square miles. *Total Population*, 1,500,000. *Principal Cities and Populations*, Monrovia (Capital), 6,000. Harper, 9,000. Buchnam, 5,000. Edma, 5,000.

While this country is supposed to use the same monetary system as the United States, the coins in circulation are those of neighboring States. Paper money is issued by the Government only to a limited extent.

Drafts should be drawn in Sterling or U. S. Dollars.

MADAGASCAR.—The third largest island in the world. A French Colony. Situated southeast of Africa, in the Indian Ocean. *Total Area*, 230,000 square miles. *Total Population*, 4,500,000. *Principal City*, Antanarivo (Capital); *Population*, 100,000.

France having obtained control of this island, the Franc has recently become the prevailing coin. The 5 Franc piece is known as the Dollar and has supplanted the former Mexican Dollar in use. Nominally the unit is called the Ariary, which is nearly like the Dollar of old Spain. Cut coins are largely in use, but the Franc of France and the divisional pieces of same, as well as the minor coins of France, are becoming generally used.

Drafts should be drawn in Francs or Sterling.

MOROCCO.—An Empire. Situated on extreme northern coast of Africa. *Total Area*, 314,000 square miles. *Total Population*, 5,000,000. *Principal Cities and Populations*, Fez (Capital), 140,000. Morocco, 50,000. Mequinez, 56,000. Tangier, 30,000. Tet, 25,000.

Unit—Okia or Ounce = 4 Blankeels of 6 Floos Each.

The Okia is a silver piece worth about 48.8 cts. Pieces of 5, 2½, 1, and ½ Okias are supplied by the mints at Paris. 6 Floos are equal to about 2 cts., U. S. money.

Drafts should be drawn in Sterling or Francs.

NATAL.—A British Colony. Situated in extreme southeastern part of Africa, on the Indian Ocean. *Total Area*, 20,850 square miles. *Total Population*, 544,000. *Principal Cities and Populations*, Durban, 28,000. Pietermaritzburg (Capital), 21,000.

NATAL—Continued.

The coins used in this country are furnished by Great Britain and are principally the silver and bronze coins. Bank notes are issued by the Natal Bank. Accounts are kept in pounds, shilling, and pence.

Drafts should be drawn in Sterling.

ORANGE FREE STATE.—A Dutch Republic. Situated in the southeastern part of Africa. *Total Area*, 48,300 square miles. *Total Population*, 207,500. *Principal Cities and Populations*, Bloemfontein (Capital), 6,000. Jagers Fontein, 4,000.

This country uses the money of Great Britain, the same as in Natal, Cape Colony, and the South African Republic adjoining. Accounts are kept in pounds, shilling, and pence.

Drafts should be drawn in Sterling.

REUNION.—An island just east of the Island of Madagascar belonging to France. No data as to area or population. This island uses the money of France. Notes are issued by the Bank of Reunion. The principal city is St. Denis.

Drafts should be drawn in Francs or Sterling.

SIERRA LEONE.—A British colony on northwestern coast of Africa. *Total Area*, 4,000 square miles. *Total Population*, 136,000. *Principal City*, Freetown (Capital), *Population*, 30,000.

The money used in this country is principally the 5 Franc piece of France and the divisional pieces. Also the silver and minor coins of Great Britain. French money is most in use by reason of the business relations with the adjoining French Colony of Senegal. No paper money issued.

Drafts should be drawn in Sterling or Francs.

SOUTH AFRICAN REPUBLIC—(or Transvaal). A Dutch Republic in Southern part of Africa. *Total Area*, 121,850 square miles. *Total Population*, 750,000. *Principal Cities and Populations*, Pretoria (Capital), 12,000. Johannesburg, 108,000. Klerksdorp, 10,000.

This country uses the money of England almost exclusively and accounts are kept as in the adjoining states of Natal, and Cape Colony. The English system was adopted to facilitate its commerce with the adjoining states. This is one of the principal gold producing countries.

Drafts should be drawn in Sterling.

TRANSVAAL.—See South African Republic.

TUNIS.—A French Protectorate located on extreme northern coast of Africa on the Mediterranean Sea. *Total Area*, 45,000

TUNIS—Continued.

square miles. *Total Population*, 1,500,000. *Principal Cities and Populations*, Tunis (Capital) 153,000. Kairwan, 15,000. Sfax, 10,000. Soussa, 10,000.

Old Unit—Piaster = 16 Karobs.
New Unit—Franc = 100 Centimes.

Gold Coins and Value.—25 Piaster ($2.89), 20 Franc ($3.86), 10 Franc ($1.93).

Silver Coins and Value.—2 Franc (34.8 cts.), 1 Franc (17.4 cts.), half Franc (8.7 cts.), 20 Centime (3.5 cts.).

Minor Coins.—10 and 5 Centime pieces of bronze.

Paper Money.—Notes issued by Bank of Algeria and Bank of France in various denominations.

The old unit of this country, the Piaster, was equal to about 11⅔ cents, U. S. money.

Drafts should be drawn in Francs or Sterling.

ZANZIBAR.—British Protectorate. An island located off the eastern coast of Africa, opposite German East Africa. *Total Area*, 985 square miles. *Total Population*, 200,000. *Principal City*, Zanzibar (Capital), *Population*, 30,000.

Unit—Dollar = 100 Cents or Pesas.

Gold Coins and Value.—5 Dollars ($4.92), 2½ Dollars ($2.46).

Silver Coins and Value.—1 Dollar (49 cts.), 50 cts. (24.5 cts.), 25 cents (12 cts).

Minor Coins.—Cents or pesas of bronze.

The Maria Theresa dollar of Spain and the Rupee of India also circulate freely.

Drafts should be drawn in Sterling.

PACIFIC OCEAN.

AUSTRALIA.—British Colony. An Island surrounded by the Pacific and Indian Oceans, located southeast of Asia, belonging to Great Britain. It is divided into five Provinces or States as follows: Queensland, New South Wales, South Australia, Victoria and Western Australia. *Total Area*, 2,946,691 square miles. *Total Population*, 3,310,190. *Principal Cities and Populations:* Sidney, N. S. W., 420,000. Brisbane, Que., 100,000. Adelaide, S. A., 150,000. Melbourne, Vic., 491.000. Perth, W. A., 45,000.

Unit—Pound = 20 Shillings.
1 Shilling = 12 Pence.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

AUSTRALIA—Continued.

Gold Coins and Value.—Sovereign or Pound ($4.866), Australia half Sovereign ($2.43), 5 Guinea ($25.55), 2 Guinea ($10.22), Guinea ($5.11), half Guinea ($2.55), quarter Guinea ($1.27).

Silver Coins and Value.—Crown ($1.08), half Crown (54.4 cts.), Shilling (21.7 cts.), Six-Pence (10.8 cts.), Three-Pence (5.4 cts.).

Minor Coins.—Pence, Half-Pence, and Farthings of bronze. The Farthing is worth about ½ of 1 cent in U. S. Money.

Paper Money.—Bank notes are issued by 17 different banks and branches in denominations of various amounts in pounds Sterling. The silver dollar of Mexico is also in general circulation.

Drafts should be drawn in Sterling

BORNEO.—Island. British and Dutch Colony, the north-eastern portion being under British control. *Total Area,* 290,000 square miles. *Total Population,* 1,846,000. *Principal Cities and Populations,* Brunei, 20,000. Sandaken, 6,000. Sarawak, 20,000.

The British portion of this Island uses dollars and cents the same as in the United States. The Dutch portion uses the Florin or Guilder the same as in Java and Sumatra.

Drafts should be drawn in Sterling or Florins.

FIJI ISLANDS.—A group of over 200 islands just East of Australia under control of Great Britain. *Total Area,* 8,045 square miles. *Total Population,* 121,180. *Principal City,* Sura (Capital), *Population,* 5,000. These Islands use the English Pound, Shilling and Pence. Bank notes are supplied by banks in Australia.

Drafts should be drawn in Sterling.

HAWAII ISLANDS.—A group of several islands about 2,090 miles southwest of San Francisco, California, recently annexed to the United States. *Total Area,* 6,740 square miles. *Total Population,* 110,000. *Principal City,* Honolulu (Capital); *Population,* 30,000.

The money in use in these islands is the same as that in use in the United States.

Drafts should be drawn in U. S. Dollars.

NEW ZEALAND.—Islands. A British Colony of Islands located just west of Australia. *Total Area,* 104,471 square miles. *Total Population,* 626,660. *Principal Cities and Populations,* Wellington (C'p'l), 45,000. Auckland, 60,000. Dunedin, 50,000. Christ Church, 50,000.

Unit—Pound = 20 Shillings.
1 Shilling = 12 Pence.

The money used in this country is the same as that in use in Australia.

Drafts should be drawn in Sterling.

TASMANIA.—Van Diemens Land. A British Colony Island just south of Australia. *Total Area,* 26,215 square miles. *Total Population,* 150,000. *Principal Cities and Populations,* Hobart (Capital); 36,000. Launceston, 25,000.

Unit—Pound=20 Shillings.
1 Shilling=12 Pence.

The money in use in this country is the same as that in Australia.

Drafts should be drawn in Sterling.

NORTH AMERICA.

ALASKA.—A Territory of the United States. *Total Area,* (Estimated) 577,398 square miles. *Total Population,* 100,000. *Principal Cities,* Sitka (Capital), 3,000. Juneau, 6,000. St. Michaels, *Population,* unknown. Circle City, 6,000. Weare, *Population,* unknown.

Unit—Dollar=100 Cents.

The money of the United States as well as that of Canada is in circulation. Being a great gold-producing country with poor banking facilities, gold dust is used for local commercial purposes in lieu of coined pieces.

Drafts should be drawn in U. S. Dollars.

CANADA.—An important British Colony of Great Britain, comprising all of British North America except New Foundland and Labrador. There are eight provinces or states as follows: New Brunswick, Quebec, Ontario, Manitoba, British Columbia, Northwest Territories, Nova Scotia, and Prince Edwards Island. *Total Area,* 3,496,000 square miles. *Total Population,* 4,829,400. *Principal Cities and Populations,* Toronto, Ont., 185,000. Montreal, (Capital) Que., 220,000. Quebec, Ont., 63,000. Hamilton, Ont., 50,000. Ottawa, (Capital) Ont., 45,000. St. Johns, N. B., 40,000. Halifax, N. S., 40,000. Winnipeg, Man., 25,000. Victoria, B. C., 20,000. Vancouver, B. C., 18,000.

Unit—Dollar = 100 Cents.

Gold Coins.—No gold pieces have been coined, the gold coins of the United States and Great Britain being used almost exclusively.

Silver Coins and Value.—50 cents (44.6 cts.), 25 cents (22.3 cts.), 10 cents (8.9 cts.), 5 cents (4.5 cts.)

Minor Coins.—One cent pieces of copper.

Paper Money.—Notes issued by Government and banks in denominations of $1, $2, $4, $5, $10, $20, $50, $100, $500, $1,000.

CANADA—Continued

The money of the United States, both gold and silver, passes without discount in all cities near the border and on the great lakes, and money of England is, of course, accepted at face value.

Draw drafts in U. S. Dollars.

LABRADOR.—A British Colony on east coast of British North America. *Total Area,* 25,000 square miles. *Total Population,* 52,000.

Unit—Dollar = 100 Cents.

The money of this country is the same as that of New Foundland.

Drafts should be drawn in U. S. Dollars.

MEXICO.—A Republic. *Total Area,* 747,900 square miles. *Total Population,* 11,615,000. *Principal Cities and Populations,* Mexico City (Capital), 350,000. Leon, 120,000. Allende, 118,000. Guadalajara, 85,000. Puebla, 80,000. Guanajuato, 55,000.

Unit—Peso or Dollar = 100 Centavos or Cents.

Gold Coins and Value.—Doubloon ($15.53), Half Doubloon ($7.76), Quarter Doubloon ($3.88), Eighth Doubloon ($1.94), Sixteenth Doubloon (Dollar) (98 cts.), 20 Pesos ($19.66), 10 Pesos ($9.83), 5 Peso ($4.915), 2½ Pesos ($2.457), Peso (98.3 cts.) The home value of the Doubloon is $16.00.

Silver Coins and Value.—Peso or Dollar (47.4 cts.), Half Peso —50 Centavos—(24 cts.), Quarter Peso—25 Centavos (12 cts.), 10 Centavos (5 cts.) 5 Centavos (2½ cts.).

Minor Coins.—5, 1, and ½ Centavo pieces of nickel and 2 and 1 Centavo pieces of copper.

Paper Money.—Notes issued by banks of usual denominations.

This country produces great quantities of silver and provides many other countries with coins through its eleven mints. The greater proportion of its coinage is exported.

Drafts should be drawn in Mexican or U. S. Dollars.

NEW FOUNDLAND.—A British Colony on east coast of British North America. *Total Area,* 20,000 square miles. *Total Population,* 150,000. *Principal City and Population,* St. Johns (Capital), 30,000.

Unit—Dollar = 100 Cents.

Gold Coins and Value.—2 Dollar ($2.03), Sovereign ($4.866).

Silver Coins and Value.—50 cents 44.6 cts.), 25 cents (22.3 cts.), 10 cents (8.9 cts.), 5 cents (4.5 cts.)

Minor Coins.—Cent pieces of copper and zinc.

Paper Money.—Notes supplied by banks of Canada and of same denominations.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

NEW FOUNDLAND—Continued.

The Dollar of the United States, the Sovereign of England, and the Spanish Doubloon are full legal tender for 98.5 cts., $4.80, and $15.35 respectively.

This country maintains a position of independence of Canada, being under separate Government in direct communication with England.

Drafts should be drawn in U. S. Dollars.

UNITED STATES.—A Republic. *Total Area*, 3,602,990 square miles. *Total Population*, 65,600,000. *Principal Cities and Populations*, Washington, D. C., (Capital), 250,000. New York, N. Y., 2,000,000. Chicago, Ill., 1,800,000. Philadelphia, Pa., 1,000,000. Boston, Mass., 500,000. St. Louis, Mo., 500,000. Cincinnati, Ohio, 390,000. Buffalo, N. Y., 350,000. San Francisco, Cal., 325,000. Cleveland, Ohio, 275,000. New Orleans, La., 250,000. Pittsburgh, Pa., 250,000. Kansas City, Mo., 150,000. Milwaukee, Wis., 200,000. St. Paul, Minn., 150,000. Minneapolis, Minn., 175,000. Detroit, Mich., 200,000. Louisville, Ky., 175,000. Omaha, Neb., 150,000.

Unit—Dollar = 100 Cents.

Gold Coins and Value.—Double Eagle ($20), Eagle ($10), Half Eagle ($5), Quarter Eagle ($2.50). Dollar ($1).

The actual value of the Eagle, Half Eagle, and Quarter Eagle coined prior to 1834 is, by reason of greater weight and fineness, $10.65, $5.32, and $2.66 respectively.

Silver Coins and Value.—Trade Dollar (53 cts.), Standard Dollar ($1), Half Dollar (50 cts.), Quarter Dollar (25 cts.), Dime, 10 cts.), Half Dime (5 cts.), Three Cents (3 cts.). Silver coins known as Souvenir, Columbian, or World's Fair Half and Quarter Dollars are worth 50 cts. and 25 cts. respectively.

Minor Coins.—5 and 3 cent pieces of nickel and 1 cent pieces of nickel and copper; also 2 and 1 cent pieces of bronze. Half cent pieces of copper were coined prior to 1857.

Paper Money.—Notes issued by Government and banks in denominations of 1, 2, 5, 10, 20, 50, 100, 500, and 1,000 Dollars.

Checks should be drawn in U. S. Dollars.

CENTRAL AMERICA.

BRITISH HONDURAS.—A British Colony adjoining Mexico on the southeast. *Total Area*, 7,562 square miles. *Total Population*, 31,500. *Principal City*, Belize (Capital), *Population*, 6,000.

Unit—Peso or Dollar = 100 Centavos or Cents.

BRITISH HONDURAS—Continued.

Gold Coins.—None issued.

Silver Coins and Value.—Peso or Dollar (44.3 cts.), Half Dollar (22.1 cts.), Quarter Dollar (11 cts.), 10 Cents (4.4 cts.), 5 Cents (2.2 cts.).

Minor Coins.—Cent pieces of bronze.

Paper Money.—None issued.

Several attempts have been made to introduce the British monetary system without success.

Gold Coins of the United States and coins of Mexico and Central American states circulate.

Drafts should be drawn in U. S. or Mexican Dollars unless Sterling is preferred.

COSTA RICA.—A Republic. *Total Area*, 23,000 square miles. *Total Population*, 295,000. *Principal Cities and Populations*, San Jose (Capital), 30,000. Cartago, 15,000. Alajnela, 15,000. Heredia, 15,000.

Unit—Colon = 100 Centavos.

Gold Coins and Value.—Onza or Doubloon ($15.73.6), Half Onza ($7.86.8), 20 Pesos ($19.29.5), 20 Colon ($9.31), 10 Colon ($4.65), 5 Colon ($2.32.5), 2 Colon (93 cts.), Colon (46.5 cts.).

Silver Coins and Value.—50 Centavos (44.3 cts.), 25 Centavos (22.1 cts.), 10 Centavos (8.9 cts.), 5 Centavos (4.4 cts.).

Minor Coins.—No data as to these coins.

Paper Money.—Notes of various denominations in Pesos issued by two banks.

Drafts should be drawn in U. S. or Mexican Dollars.

GUATEMALA.—A Republic. *Total Area*, 46,800 square miles. *Total Population*, 1,460,000. *Principal Cities and Populations*, Guatemala (Capital), 66,000. Santo Tomas, 20,000. Coban, 27,000. Tontonicapau, 26,000.

Unit—Peso = 100 Centavos.

Gold Coins and Value.—20 Peso ($19.29.5), 10 Peso ($9.64.7), 5 Peso ($4.82.3), Peso (96.4 cts.), 2½ Peso ($2.41), Doblon or Onza ($15.93), Quarter Doblon or Pistole ($3.88), Pistole (97 cts.).

Silver Coins and Value.—Peso (42.7 cts.), Half Peso (50 Centavos, 21.3 cts.), 25 Centavos (10.7 cts.), 10 Centavos (4.3 cts.)

Minor Coins.—2 and 1 Centavo pieces of bronze.

Paper Money.—Notes of various denominations of Pesos are issued by three banks.

American gold coin commands a premium.

Drafts should be drawn in U. S. or Mexican Dollars.

HONDURAS.—A Republic. *Total Area*, 47,090 square miles. *Total Population*, 432,000. *Principal Cities and Populations*, Tegucigalpa (Capital), 12,600. Comayagua, 10,000.

Unit—Peso = 100 Centavos.

Gold Coins and Value.—20 Peso ($19.29.5), 10 Peso ($9.67.4), 5 Peso ($4.82.3), 2½ Peso ($2.41), Peso (96.4 cts.).

Silver Coins and Value.—Peso (42.7 cts.), Half Peso (50 Centavos, 21.3 cts.), 25 Centavos (10.7 cts.), 10 Centavos (4.3 cts.).

Minor Coins.—2 and 1 Centavo pieces of bronze.

Paper Money.—No data.

Draw drafts in U. S. or Mexican dollars.

NICARAGUA.—A Republic. *Total Area*, 49,500 square miles. *Total Population*, 313,000. *Principal Cities and Populations*, Leon, 60,000. Granada, 30,000. Managua (Capital), 20,000.

Unit—Peso=100 Centavos.

Gold Coins and Value.—Onza or Doubloon ($15.73.6), Half Onza ($7.86.8), 20 Peso ($19.29.5), 10 Peso ($9 64.7), 5 Peso ($4.82.3), 2½ Peso ($2.41), Peso (96.4 cts.).

Silver Coins and Value.—Peso (42.7 cts.), Half Peso (50 Centavos, 21.3 cts.), Quarter Peso, (25 Centavos, 10.7 cts.), 10 Centavos (4.3 cts.), 5 Centavos (2.2 cts).

Minor Coins.—2 and 1 Centavo pieces of bronze.

Paper Money.—Notes issued by Government in various denominations of Pesos.

Draw drafts in U. S. or Mexican Dollars.

SALVADOR.—A Republic. *Total Area*, 7,255 square miles. *Total Population*, 664,500. *Principal Cities and Populations*, Santa Ana 33,000. San Salvador (Capital), 30,000.

Unit—Peso=100 Centavos.

Gold Coins and Value.—Onza or Doubloon ($15.73.6), Half Onza ($7.86.8), 20 Peso ($19.29.5), 10 Peso ($9.64.7), 5 Peso ($4.82.3), 2½ Peso ($2.41), Peso (96.4 cts.)

Silver Coins and Value.—Peso (42.7 cts.), Half Peso (50 Centavos, 21.3 cts.) Quarter Peso (25 Centavos, 10.7 cts.), 10 Centavos (4.3 cts.)

Minor Coins.—2 and 1 Centavo pieces of bronze or copper.

Paper Money.—No data.

Draw drafts in U. S. or Mexican Dollars.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

ATLANTIC OCEAN.

BERMUDA ISLANDS.—A British Colony of Islands in the Atlantic Ocean due east from North Carolina, U. S. A. *Total Area*, 20 square miles. *Total Population*, 15,300. *Principal City*, Hamilton (Capital). *Population*, 1,500.

Money. Unit—Pound=20 Shilling.
1 Shilling=12 Pence.

Although the unit of money is the same as Great Britain, accounts are still kept in dollars and cents. U. S. gold coins are accepted everywhere and the British gold and silver coins are in circulation. A silver British four-penny piece called *groat* is supplied by Great Britain, its nominal value being about 8 cts. Paper money is supplied by the Nassau Bank of Nassau at Bahama, and the Colonial Bank at Jamaica.

The Bermudas comprise a group of about 300 islands of coral formation but only 12 are inhabited.

Drafts should be drawn in U. S. Dollars or Sterling.

CAPE VERDE ISLANDS.—A group of about 10 islands off the west coast of Africa belonging to Portugal. No data as to total area or population. The principal cities are Port Praya on Santiago Island, Luzon on Fogo Island, Mindello on Santa Vincente Island, Boavista on Boavista Island.

These Islands use principally the money of Portugal, although those near Africa use the *rupee* and coins in use in Zanzibar. There is also in use a coin called "barinha," worth in U. S. money about 3 cts., and in the western islands a piece called "macuta," worth about 5 cents.

Draw drafts in Sterling, Francs, or Marks.

SAINT HELENA ISLAND.—An island in mid-ocean southwest of Africa, controlled by Great Britain. It is situated in the direct line for vessels passing around Cape of Good Hope and a valuable naval station. It is especially notable by reason of its being the place of Napoleon's exile and death 1815–21.

All kinds of money pass, but British money alone is legal tender. No notes are issued and gold is little used. The principal city is Jamestown. No data as to area or population.

Draw drafts in Sterling.

WEST INDIES ISLANDS.

ANGUILLA ISLAND.—One of the Leeward Islands of West Indies group, east of Porto Rico, under British control, having area about 100 square miles and population of about 20,000. Principal city, Arena.

ANGUILLA ISLAND—Continued.

Money—Pound=20 Shilling.
1 Shilling=12 Pence.

Accounts are kept in dollars and cents, although British gold, silver and minor coins are in circulation. Gold coins of the United States are accepted everywhere. English mints also supply a four-penny piece called "groat," equal to about 8 cents. We have no data as to paper money, but presumably the banks at Nassau, at Bahama, and the Colonial Bank at Jamaica furnish notes, as is case with other British West Indies Islands.

Draw drafts in Sterling or U. S. Dollars.

BAHAMA ISLANDS.—A group of about 20 islands off the east coast of Florida, U. S. A., under control of Great Britain. *Total Area*, 5,450 square miles. *Total Population*, 12,000. *Principal City*, Nassau (Capital), on the island of New Providence. *Population*, 10,000,

The unit of money is the same as Great Britain, although accounts are kept in dollars and cents. British silver pieces are in general circulation. U. S. gold coins are accepted everywhere and silver coins too at their *actual* value. English mints supply a silver piece called "groat," worth about 8 cents in U. S. money. Paper money is supplied by bank at Nassau.

Draw drafts in Sterling or U. S. Dollars.

BARBADOES.—A British Colony, one of the Leeward Islands just east of Porto Rico. *Total Area*, 166 square miles. *Total Population*, 182,300. *Principal City*, Bridgetown (Capital). *Population*, 25,000.

The same monetary conditions as at Bahama Islands.

Draw drafts in Sterling or U. S. Dollars.

CUBA.—Formerly a Spanish possession, but now under control of the United States. *Total Area*, 45,000 square miles. *Total Population*, 1,730,000. *Principal Cities and Population;* Havana, 200,000; Pinar del Rio, 30,000; Matanzas, 56,000; Cardenas, 23,000; Santa Clara, 32,000; Sagua la Grande, 18,000; Cienfuegos, 40,000; Trinidad, 29,000; Esperitu, 20,000; Puerto Principe, 49,000; Santiago, 50,000.

Money. The money of account is the Peso = 8 reals, although the actual unit prior to the transfer of the island to the United States was the Spanish peseta = 100 centimos. On account of the new conditions, accounts will no doubt be soon kept in dollars and cents of the United States.

Gold Coins and Value in use: Centeen ($5.02), Quadruple Onza ($15.73.6), Isabelle Doubloon ($5.02), Alfonso—25 Pesetas—($4.83), Peso (92.6 cents).

CUBA—Continued.

Silver Coins and Value: Peso (49 cents), Half Peso (24½ cents), Quarter Peso (12 cents), 10 Centimos (6 cents), 5 Centimos (3 cents).

Minor Coins: 5, 2 and 1 Centimo pieces of bronze.

Paper Money: Notes issued by Cuban banks of small denominations. Paper money of Spain in Pesetas is also in circulation.

The money of the United States now passes almost everywhere, gold coins being especially acceptable.

Draw drafts in U. S. Dollars.

GAUDELOUPE (Islands).—A group of islands lying southeast of Porto Rico, controlled by France. *Total Area*, 722 square miles. *Total Population*, 166.000. *Principal City*, Basse Terre.

Money. These islands use the French monetary system, the Franc = 100 Centimes. Gold is not in general circulation. For silver and minor coins, see France. Notes are issued by banks in francs of denominations of 5, 25, 100 and 500.

Draw drafts in Francs.

HAYTI.—A Franco-American republic, occupying the west portion of the island of Hayti or San Domingo, and located just east of the Island of Cuba. *Total Area*, 10,204 square miles. *Total Population*, 960,000. *Principal City and Population*, Port au Prince (Capital), 20,000.

Money. Unit—Gourde=100 Cents.

Gold Coins and Value: Although very little, if any, gold has been coined, the pieces provided for are as follows: 10 Gourde ($9.65), 5 Gourde ($4.82.5), 2 Gourde ($1.93), Gourde (96.5 cents).

Silver Coins and Value: Gourde (87 cents), 50 Cents (43.5 cents, 20 Cents (17.4 cents), 10 Cents (8.7 cents), 5 Cents (4.3 cents).

Minor Coins: 5-cent pieces of nickel and 1-cent piece of bronze.

Paper Money: Notes issued by the National Bank of Hayti and by the Government in usual denominations in Gourdes.

The gold coins of the United States are acceptable everywhere.

Inhabitants mostly colored. Mexican silver dollars are rated at about 50 cents.

Draw drafts in U. S. Dollars or Francs.

JAMAICA (Island).—A British Colony, lying just south of Cuba. *Total Area*, 4,424 square miles. *Total Population*, 639,500. *Principal City and Population*, Kingston (Capital), 46,542.

Money. Unit—Pound=20 Shillings.
12 Pence=1 Shilling. 4 Farthings=1 Pence.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

JAMAICA—Continued.

The gold coins principally in use are those of the United States, they being held by banks in their reserve. British gold coins are, of course, acceptable and to some extent used.

The active silver circulation are British coins (see Great Britain), although the Mexican Peso or Dollar is quite generally used.

Minor coins are Pence and Half-Pence of bronze.

Paper money issued by the Colonial Bank.

Draw drafts in Sterling or U. S. Dollars.

MARTINIQUE (Island).—A French possession located southeast of Porto Rico. *Total Area*, 381 square miles. *Total Population*, 175,500. *Principal City*, Saint Pierre (Capital), 25,000 population.

Money. Unit—Francs = 100 Centimes.

This island uses the money of France almost exclusively, although gold coins of the United States and Great Britain are acceptable.

Draw drafts in Francs or U. S. Dollars.

PORTO RICO (Island). A recently acquired possession of the United States, formerly belonging to Spain. *Total Area*, 3,550 square miles. *Total Population*, 807,000. *Principal Cities and Population*, Ponce, 38,000; San Juan, 30,000.

Money. Old Unit—Peseta = 100 Centimos.
New Unit—U. S. Dollar = 100 Cents.

Owing to the short period in which this island has been in the possession of the United States, most accounts are still kept in the Spanish Peseta, and Spanish money is still quite generally used (see Spain). The money of the United States will now be found in all sections of the island and passes current. The value of the Silver Peseta is about 19 cents. Paper money, both Spanish and United States, is used.

Draw drafts in U. S. Dollars.

SANTO DOMINGO (Island). A Republic, occupying the eastern portion of the Island of Haiti. *Total Area*, 18,045 square miles. *Total Population*, 417,000. *Principal Cities and Population*, Santo Domingo (Capital), 25,000; Puerto Plato, 15,000; Santiago, 10,000.

Money. Unit—Dollar = 100 Cents.

The coins in use are the same as in the United States, but of less actual value. Mexican coins, as well as Spanish, are in general circulation. The Mexican silver dollar is rated at about 50 cents. Bank notes are issued by the National Bank of Santo Domingo. Only a very small amount of money is needed or used. Inhabitants principally colored.

Draw drafts in U. S. Dollars.

SOUTH AMERICA.

ARGENTINE REPUBLIC.—A Republic, one of the most prosperous in South America. *Total Area*, 1,118,000 square miles. *Total Population*, 5,200,000. *Principal Cities and Population*, Buenos Ayres (Capital), 675,000; Cordova, 66,000; Rosario, 100,000; La Plata, 15,000; Tucuman, 40,000.

Money. Unit—Peso = 100 Centavos.

Gold Coins and Value: Argentino—5 Pesos—($4.82.4), Half Argentino—2½ Pesos—($2.41.2).

Silver Coins and Value (Estimated): Peso (50 cents), 50 Centavos (25 cents), 20 Centavos (10 cents), 10 Centavos (5 cents), 5 Centavos (2.5 cents).

Minor Coins: 5, 2 and 1 Centavo pieces.

Paper Money: Notes issued by Government and Banks.

Draw drafts in U. S. Dollars (New York Exchange) unless desired in other money.

BRITISH GUIANA.—A British Colony on northeast coast of South America. *Total Area*, 109,000 square miles. *Total Population*, 280,000. *Principal City and Population*, Georgetown (Capital), 55,000.

This Colony uses the money of Great Britain, but accounts are generally kept in dollars and cents. A *four-penny* piece of silver, worth nominally 8 cents, is supplied by Great Britain.

Draw drafts in U. S. Dollars (New York Exchange) or Sterling.

BOLIVIA.—A Republic, situated in western part of South America. *Total Area*, 597,271 square miles. *Total Population*, 2,500,000. *Principal Cities and Populations*, Sucre (Capital), 40,000; La Paz, 80,000; Cochabamba, 50,000; Potosi, 20,000.

Money. Unit—Boliviano = 100 Centavos.

Gold Coins: Doubloon ($15.60).

Silver Coins and Value: Boliviano (42.7 cents), 50 Centavos (21.3 cents), 20 Centavos (8.5 cents), 10 Centavos (4.3 cents), 5 Centavos (2.2 cents).

Minor Coins: 5 Centavo pieces of nickel and 1 Centavo piece of copper or bronze.

Paper Money: Notes issued by banks in various denominations of Bolivianos.

The home value of the Boliviano is the same as the dollar of the United States, and the 50, 20, 10 and 5 Centavo pieces, the same as coins of like denomination in the United States.

Draw drafts in U. S. Dollars (New York Exchange) unless preferred in other money.

BRAZIL.—The largest of South American Republics. *Total Area*, 3,209,878 square miles. *Total Population*, 18,000,000. *Principal Cities and Populations*, Rio de Janeiro (Capital), 800,000; Bahai, 200,000; Pernambuco, 190,000; Las Pauls, 75,000; Para, 70,000; Belem, 65,000.

Money. Unit—Milreis = 1,000 Reis.

The Republic adheres to the monetary system of its mother country, Portugal, except that its unit, the Milreis, is only half the value of that of Portugal.

Gold Coins and Value: 20 Milreis ($10.92), 10 Milreis, ($5.46), 5 Milreis ($2.73). The value of the gold Milreis is 54.6 cents. Moidore, old ($4.93), Half Joe, old ($8.73).

Silver Coins and Value: 2 Milreis (97 cents), 1 Milreis (48.5 cents), Half Milreis (24.2 cents), Double Pataca (35 cents), 500 Reis (12 cents).

Minor Coins: 200 and 100 Reis, and nickel and 40 Reis of bronze.

Paper Money: Notes issued by the Government and Bank of Republic of Brazil.

Gold usually commands a high premium.

Draw drafts in U. S. Dollars (New York Exchange) unless preferred in other money.

CHILE.—A Republic, lying on the southwest coast of South America, between the Andes Mountains and Pacific Ocean. *Total Area*, 290,828 square miles. *Total Population*, 3,500,000. *Principal Cities and Population*, Santiago (Capital), 190,000; Valparaiso, 105,000; Concepcion, 25,000; Talca, 23,000; Chillan, 20,000.

Money. Unit—Peso = 100 Centavos.

Gold Coins and Value: Condor, 10 Pesos ($7.30), Half Condor or Doubloon ($3.65), Fifth Condor or Escudo ($1.82.5), Peso (36.5 cents).

Silver Coins and Value (Estimated): Peso (48 cents), Half Peso (24 cents), 20 Centavos (9 cents), Decimo (5 cents), Media Decimo (3 cents).

Paper Money: Notes issued by Government and banks in various denominations of Pesos.

Gold usually commands high premium.

Draw drafts in U. S. Dollars (New York Exchange) unless preferred in other money.

COLOMBIA.—A Republic, in extreme northwestern part of the Continent and includes the Isthmus of Panama. *Total Area*, 504,773 square miles. *Total Population*, 3,873,600. *Principal Cities and Population*, Bogota (Capital), 110,000; Medellin, 40,000; Panama, 30,000; Barranquilla, 20,000; Papayan, 20,000.

MONEY OF FOREIGN COUNTRIES, &c.—Continued.

COLOMBIA—Continued.

Money. Unit—Peso = 100 Centavos.

Gold Coins and Value: Condor ($9.64.7), Double Condor ($19.29.5), Doubloon ($15.62), Half Doubloon ($7.60), Quarter Doubloon ($3.80).

Silver Coins and Value: Peso (42.7 cents), 50 Centavos (21.3 cents), 25 Centavos (10.7 cents), 10 Centavos (4.3 cents), 5 Centavos (2.2 cents).

Minor Coins: 5, 1 and ½ Centavos of nickel.

Paper Money: Notes issued by banks in denominations of 5, 10, 50, 100 and 500 Pesos.

Draw drafts in U. S. Dollars (New York Exchange).

ECUADOR.—A Republic. So called by reason of being situated on the Equator. *Total Area*, 118,630 square miles. *Total Population*, 1,300,000. *Principal Cities and Populations*, Quito (Capital), 80,000; Guayaquil, 50,000; Cuenca, 30,000.

Money. Unit—Sucre = 100 Centavos.

Gold Coins and Value: Condor ($9.64.7), Double Condor ($19.29.4).

Silver Coins and Value: Sucre (42.7 cents), 50 Centavos (21.3 cents), 20 Centavos (8.5 cents), 10 Centavos (4.3 cents).

Minor Coins: 5, 1 and ½ Centavo pieces of nickel and 2 and 1 Centavo pieces of bronze.

Paper Money: Notes issued by banks in several denominations of Pesos.

Draw drafts in U. S. Dollars (New York Exchange).

FRENCH GUIANA.—A French Colony on northeast coast of South America. *Total Area*, 46,700 square miles. *Total Population*, 25,796. *Principal City and Population*, Cayenne (Capital,) 10,600.

Money. Unit—Franc = 100 Centimes.

Although this country uses the French monetary system, accounts are kept in dollars and cents, as in most South American countries. Very little money is used. For list coins, see France.

Draw drafts in U. S. Dollars or Francs.

GUIANA.—See French and British Guiana.

PARAGUAY.—A Republic in southern part of South America. *Total Area*, 91,970 square miles. *Total Population*, 430,000. *Principal Cities and Populations*, Asuncion (Capital), 35,000; Luque, 20,000; Carapequa, 15,000.

Money. Unit—Peso = 8 Reals.

PARAGUAY—Continued.

All kinds of South American money circulate in this interior state, although but very little is used. The money of Brazil is more generally in circulation. Gold is usually at a high premium.

Draw drafts in U. S. Dollars (New York Exchange).

PERU.—A Republic. *Total Area*, 463,747 square miles. *Total Population*, 2,622,000. *Principal Cities and Populations*, Ariquipa, 35,000; Lima (Capital), 100,000; Callao, 35,000; Cuzco, 30,000.

Money. Unit—Sol = 10 Dineros of 10 Centavos.

Gold Coins and Value: Doubloon ($15.57), 20 Sol ($9.65), 10 Sol ($4.82.5), 5 Sol ($2.41.2), 2 Sol (96.4 cents), Sol (48.2 cents).

Silver Coins and Value: Sol (42.7 cents), ½ Sol (21.3 cents), ⅕ Sol (8.5 cents), Dinero or 1/10 Sol (4.3 cents), Half Dinero (2.2 cents), Peso (old), (52 cents).

Minor Coins: 2 and 1 Centavos of copper.

The value of the Centavo is nominally 1 cent.

Paper Money: No data as to present paper currency.

This country mines a vast quantity of silver.

Draw drafts in U. S. Dollars (New York Exchange) unless preferred in other money.

URUGUAY.—A Republic. *Total Area*, 72,110 square miles. *Total Population*, 648,300. *Principal Cities and Populations*, Montivedio (Capital), 180,000; Salto, 12,000; San Jose, 6,000.

Money. Unit—Peso = 100 Centavos.

Gold Coins and Value: Peso, or Patacoe ($1.03.4), 4 Patacoe piece, 5 Pesos ($5.17), 2 Patacoe, 2½ Pesos ($2.58.5).

Silver Coins and Value: Peso (42.7 cents), 50 Centavos (21.3 cents), 20 Centavos (8.5 cents), 10 Centavos (4.3 cents).

Minor Coins: No data.

Paper Money: Notes issued by one local and five foreign banks in several denominations of Pesos.

Many American and British, as well as some other European coins, circulate freely.

Draw drafts in U. S. Dollars (New York Exchange).

VENEZUELA.—A Republic. *Total Area*, 593,943 square miles. *Total Population*, 2,560,400. *Principal Cities and Population*, Caracas (Capital), 71,000; Valencia, 38,000; Maracaybo, 35,000; Barquisimento, 31,000.

Money. Unit—Bolivar = 20 Centavos.

Gold Coins and Value: 100 Bolivars ($19.30), 50 Bolivars ($9.65), 20 Bolivars ($3.86), 10 Bolivars ($1.93), 5 Bolivars (96.5 cents).

VENEZUELA—Continued.

Silver Coins and Value: Venezolano—5 Bolivars (93.5 cents), 2 Bolivars (34.7 cents), Bolivar (17.4 cents), 10 Centavos (8.7 cents), 4 Centavos (3.5 cents).

Minor Coins: 10 and 5 Centavos of bronze.

Paper Money: Notes issued by three English banks in usual denominations of Bolivars.

Draw drafts in U. S. Dollars (New York Exchange) unless preferred in other money.

Similarity of Monetary Systems of Different Countries.

It will be especially noted that the French system of *Francs* is in use in several other countries.

Belgium and Switzerland use the term *franc*, but the equivalent pieces of the other countries are as follows:

Italy, *Lire*. Spain, *Peseta*. Greece, *Drachma*. Bulgaria, *Lew*. Roumania, *Lei*. Servia, *Dinar*. Finland, *Markka (or Finmark)*. Venezuela, *Bolivar*, all being of about same value.

The principal coin in Japan is the *Yen*, about the same as the U. S. dollar. The dollar of South America is called *Sol*, that of Bolivia, *Boliviano*, Ecuador the *Sucre*, and in Haiti they have a similar coin called *Gourde*.

The *Guilders* of Holland, *Gulden* of Germany and the *Peso Duras* of Spain are no longer coined.

The *Teal* of China is a weight only, and varies in vaiue according to location.

In countries where coins of very small value are used to a great extent, as in case of the coin called *Cash* used in China worth only about 1-10 of one cent, the people are either very poor or very economical.

Coinage of Money.

In connection with the coinage of Metals for use as money several terms are used as follows:

Ratio is used to express the equivalent between gold and silver under the various mint laws.

Free Coinage is used to signify that anyone may bring bullion to the mint to be coined and whatever difference there is between the value of the pieces coined and the original cost of the bullion is profit to the owner.

Seignorage is used to indicate the difference between the market value of the bullion and its coinage value.

Bi-Metalism means the free and unlimited coinage of both gold and silver into coins of full paying value.

INDEX.
